Red Alert constituency analysis

There were a total of 192 red alert constituencies. As the following analysis shows, if voters have a choice, they prefer a clean and capable candidate. In the constituencies where there was only 1 candidate with pending criminal cases, voters chose 85% of the clean candidates and rejected most candidates with pending criminal charges. In the constituencies where there were 2 candidates with pending criminal charges, they chose clean candidates in 68% constituencies. The percentage of clean candidates however has gone down to around 40% in constituencies with 4 or 5 candidates. It went further down to 22% for candidates with 7 pending criminal charges.

Voters prefer "Sacha" and "Acha" if they have a choice

About NEW

The *National Election Watch (NEW)* is a nationwide campaign comprising of more than 1200 NGO and other citizen led organizations working on electoral reforms, improving democracy and governance in India. The National Election Watch is active in almost all states of India and has done election watch for all states and Lok Sabha elections since ADR, along with couple other organizations, won the PIL in Supreme Court in 2002 to making disclosure of educational, financial and criminal background of electoral candidates mandatory.

About ADR

Association for Democratic Reforms (ADR) is a Non-Political, Non-Partisan and a Non-Governmental Organization whose PIL filed in Dec 1999 culminated in a Supreme Court order on Mar 13, 2003 requiring disclosure of criminal, financial and educational background of all contesting candidates. Since then ADR has done Election Watches in almost all State Assembly and Lok Sabha elections. It continues to work towards strengthening democracy and governance in India by focusing on fair and transparent electoral and political processes. It is currently conducting election watch in all states going for assembly polls.
