- Full details of all **donors should be made available for public scrutiny under the RTI.** Some countries where this is done include Bhutan, Nepal, Germany, France, Italy, Brazil, Bulgaria, the US and Japan. In none of these countries is it possible for 75% of the source of funds to be unknown, but at present it is so in India.
- Details of donors who make **donations to the Electoral Trusts should be available in the public domain** for increasing transparency in funding of political parties.
- Any party which does not submit its donation statement to the ECI on or before 31st Oct **should be heavily penalized** and its income should not be tax-exempted

Major Political Parties of North-East India: An All-India Report

Income, Expenditure and Donations between FY 2004-05 and 2013-14

Political parties represent citizens of the country at various levels of the government, voice people's demands and needs in the administrative sphere, and therefore serve as the link between citizens and the government.

Political parties rely heavily on donations for fighting elections and running their daily affairs. They receive huge sums of money in the form of donations and contributions from corporate, trusts and individuals. Section 29C of the Representation of People Act, 1951 says that political parties are required to submit contribution details received in excess of Rs 20,000 from any person or a company. Named contributions seem to be very small i.e. single contributions above Rs 20,000 seem to be very few in numbers for all the parties.

In addition to this, the coupon system has been adopted by political parties for collecting funds by issuing of coupons in lieu of receipts to donors for cash contributions. Moreover, these are cash donations and it becomes all the more difficult to establish the identity of the donor. This implies that a lot of cash donations received remain unaccounted for in the books of accounts as only those amounts would be recorded for which a receipt has been issued.

Thus, it becomes all the more important to have a strict regulatory mechanism wherein political parties have to report the correct quantum and the source of donations received. Association for Democratic Reforms (ADR) had obtained copies of the IT Returns and Assessment Orders of various political parties through the filing of RTI applications.

Table: Share of donations from total income of national and North East regional political parties between FY 2004-05 and 2013-14

Top three sources of income of major political parties of North-East India between FY 2004-05 and 2013-14

Political parties have a wide network of offices, and a diverse membership throughout the region that they operate in. All political parties cite various sources of income, of which the top three for every party have been tabulated below. Notable observations include:

- There is **no standardization in declaring sources of income** by political parties, and thus there is no consistency seen in the method of declaration of funds received by political parties.
- **Manipur State Congress Party** categorizes all its income under the head “**Received by candidates**”.
- **Sale of coupons** and **voluntary contributions** are two primary sources of income for political parties. The foremost source of income for **AGP** (Rs. 79.34 lakhs, 72.94% of their total income) is donation and subscription. For **AITC** also, donations forms top source of income (Rs. 1380.21 lakhs, 34.51% of its total income), while contributions are the top source of income for **MPC** (Rs. 37.83 lakhs, 96.63% of its total income). Members’ contributions are the foremost source of income for **NPF** (Rs. 39.22 lakhs, 89.58% of its total income).

Table: Top three items of expenditure for regional political parties of North-East India from FY 2004-05 to 2011-12

Total number and amount of donations above Rs. 20,000 to National political parties from North-East India

ECI guidelines require political parties to record personal details of donors making contributions to their political parties in amounts excess of Rs. 20,000. Such donors are known as 'named donors'. [In its donations report, **Bahujan Samaj Party (BSP)** states that **it receives no contributions or donations above Rs. 20,000 from all over India.**]

- Amongst the national parties, INC has received the maximum number of donations (222) from the North Eastern states between FY 2004-05 and 2013-14, which amounts to a total of Rs. 5.79 crores. While during the same period, NCP has received only 1 donation from here.
- If we observe the trend of donations to INC, we can see that there is a gradual increase in number and the amount of donations from FY 2008-09 to FY 2010-11 this corresponds to the fact that INC was the ruling party in many of these states. Except for FY 2011-12, the amount of donations to INC have been increasing since FY 2008-09.
- Despite of CPM being in power during this entire decade in Tripura and before, we only see donations (above Rs 20,000) coming in from FY 2011-12. This forms a paltry sum of Rs 29.10 lakhs which is only 0.037% of the total income of CPM from FY 2004-05 to 2013-14
