FOREWORD

ADR is often asked whether fully informed voters will lead to good governance. Our response is that structural changes are also needed so that candidates with serious criminal records are eliminated, there is proper regulation and transparency in election spending, and reform of political parties ensuring inner party democracy and transparency in all forms of funding. Some then ask whether that will ensure good governance. This is a fair question as ADR has worked on these and related issues for over 15 years now. After some reflection it was felt that this was not sufficient. Indeed some would say that there is no sufficient set of actions that will ensure good governance for all times to come. However, one issue is hardly ever addressed, either in India or in the rest of the world: what do the people want from the Government? What are their priorities and how do they rate the performance of the Government?

There is a historical reason behind this neglect. Before the advent of mass education, it was widely believed that experts with experience were best positioned to decide what was good for the country, and by implication, for the people. There is some truth behind this assumption. However, crisis after crisis has shown that governance is too important an issue to be left only to big Government. Local self-Government is one response to this. However there are issues that cut across local interests and we still need a way to manage regional and national priorities. Different political parties and affiliated organizations appeal to voters telling them why they should be voted to power. In marketing jargon, this is like companies selling their products to customers. But really good companies find out what customers want. Has the time come when modern political parties need to really listen to what voters want? Meanwhile, so called ordinary voters and citizens have changed dramatically. With the spread of education, and rapidly rising awareness, thanks to modern technology and media, citizen aspirations have risen and as our survey shows, there is uniform dissatisfaction with Government's performance. Old style politics may no longer work with a younger, more aware and more demanding electorate. Recent election results around the country and in several States indicate that the voters are ahead of the political parties in many respects.

The remedy available to voters at present is to vote one Government out and bring in another. But again as experience has shown, this is not a sufficient remedy. There is little that we do as citizens to hold Government accountable once it is in power. Hence we see more and more confrontations between the people, civil society, Courts, Election Commission and the CAG on the one hand, and the Government and political system on the other.

The ADR-Daksh survey tries to constructively address this issue. It primarily seeks to listen to the voice of the people and find out what their priorities are, and how they rate the performance of the Government. The single most important finding of this survey is that people first and foremost want Employment. It cuts across regions, castes, languages, religions, gender, income brackets, age and education levels. Governments need to create policies and an environment where real fruitful employment is generated. Moreover, an India that sent an unmanned mission to Mars and the Moon still says that basic essential services like drinking water, education, health services, public transport, electricity, law and order, women's safety and subsidized food are high priorities. Policy and budget allocations need to reflect people's priorities, and implementation needs to match their expectations. The survey

also tried to find out what voters look for when voting. This is a more difficult question, and the findings are not so conclusive - perhaps because they do not want to fully reveal their mind.

This was a massive effort with over 250,000 respondents, making it perhaps the world's largest ever survey. It is also the first time such a survey was ever done. We expect to repeat this periodically so that we capture the shifting priorities of people over time. We welcome any suggestions to make this more effective. The money collected by the Government and spent by it based on various policies and schemes belongs ultimately to the people of India. This comes to about Rs.15, 000 per citizen based on the Central Government's 2014 budget of Rs.18 lakh crores. Over a 5 year period, this is about Rs.75, 000, and if we add State Government budgets, it approximately doubles. If Government policies truly reflect the priorities of the people, the survey would have achieved its purpose. If so called ordinary voters are willing to be more informed and vigilant, and then hold Governments more accountable, we will move towards better governance.

Trilochan Sastry

Chairman, ADR

February 2015

ACKNOWLEDGEMENTS

The Association for Democratic Reforms (ADR) would like to thank the people and organizations who contributed to the conduct of this pan-India survey of governance issues. This survey would not have been a success without the cooperation of the following-

1. **Interviewees:** 261466 interviewees across 525 Lok Sabha constituencies gave their time to participate in the survey. We express our deep gratitude to each one of the interviewees.
2. **Interviewers and supervisors:** CDPR and Viplav Communications-the agencies that conducted the field survey and trained the field force particularly in issues related to governance and voters' behaviour.
3. **Consultative Group:** Harish Narasappa and Narasimhan Kishore Mandyam of Daksh who gave their expertise during the development of the questionnaire and survey methodology. Daksh had conducted a Voters' Perception Survey on Performance of Karnataka MLAs in 2013.
4. **Mentor:** Professor Trilochan Sastry who conceptualised the need for this survey, supervised the administration of the survey and mentored the research group.
5. **Research Group:** Manoj Kumar and Nilesh Ekka who developed an analytical framework to accomplish the research and analysis for evaluating the findings of the survey. They also approached a wide range of print, electronic and social media and coordinated with them to disseminate the findings of the survey to the widest possible audience.
6. **Dissemination:** Heartfelt appreciation of DainikBhaskar, Times of India, India Today Group, Rajasthan Patrika, CNN-IBN and many more who worked hard to publicize and broadcast the outcome of the survey and did justice to the very idea of the survey.

Major General Anil Verma (Retd.)

Head, ADR

February 2015

INTRODUCTION

The Association for Democratic Reforms (ADR) and Daksh conducted perhaps the largest ever survey in any one country. The survey was conducted across 525 Lok Sabha constituencies and over 2, 50,000 voters participated in this exercise spread among various demographics. The main objective of this survey was to find out voter perception on specific governance issues and the rated performance of our Government on those issues.

The survey was conducted during December 2013 to February 2014, prior to the Lok Sabha elections.

This report describes the status of the 30 most important issues for the voters in their particular region in terms of their capacity, governance and specific roles in improving the living conditions of the voters. These aspects are analyzed in relation to the performance of the Government on those issues as perceived by the respondents.

To identify what are voter priorities in terms of governance issues like water, electricity, roads, food, education and health, a list of 30 items was given to voters and they were asked to rate whether a particular issue was High, Medium, or Low. This list was comprehensive as less than 5% said that there were “other issues” beyond the list.

The results of the Perception Assessment shows the striking difference between the priorities of the voters and the performance of the Government on those issues. Voter priorities have changed and expectations have gone up. There is a need to re-set some of the priorities to reflect what the voters really need and to improve governance.

The key objective of this perception assessment is to provide an improved understanding of the important expectations of voters from the Government and how they assess its performance. In addition, it seeks to fill a vital gap in contemporary times, namely, evidence based research and action on governance. For far too long we have depended entirely on ideology or the opinions of various experts. Though that is important, we also need to reflect the priorities of citizens. These priorities and assessments will change over time, and hence there is a need to repeat this survey periodically.

METHODOLOGY

At the outset it is important to note that the survey is entirely about voter perceptions. Whether the voter’s perception is right or wrong is immaterial for our purposes. For instance in urban areas, some group may perceive garbage clearance as very important while another may not think so ‘scientifically’ one may say that garbage causes health hazards, but we present the data as voters tell it, and not based on what ‘ought’ to be done. The reason is that a voter votes based on his/her own perception, and not on what may be ‘scientifically’ known to be true or false. There was no attempt to prompt or influence responses during the survey. At the same time, there are socially accepted ‘preferred’ answers. For instance asking “will you vote for someone with a serious criminal record?” is of no use. The questionnaire was suitably designed to take care of these issues.

The survey was done in the months of December, ‘13, January and February, ‘14. While a professional agency was hired to do it, ADR-Daksh designed the questionnaire, and also made random checks to ensure that the survey was proceeding smoothly. Given the size of the survey, the time and budget limitations, we wanted to keep the questionnaire short and simple. It collected the following information:

- **Demographic data.** Name, gender, caste/religion, age, type of assets owned (to get wealth ranking information).
- **What are the important factors for voting:** Candidate, Political Party, Candidate caste/religion, Party’s PM Candidate, Distribution of ‘gifts’.
- **‘Knowledge’ of voter regarding crime and money in elections.** Specifically whether they know of distribution of such gifts and whether they know of criminal record of candidates.
- **The 30 Issues on Governance and rating of local governance on each issue.** These included agriculture, electricity for agriculture and domestic use, farm prices, consumer prices, irrigation, subsidy for seed and fertilizers, accessibility and trustworthiness of MP, terrorism, employment, health care, law and order, public transport, roads, education, drinking water, empowerment and security of women, eradication of corruption, reservation, strong defence/military, subsidized

food distribution (PDS), training for jobs, garbage clearance, encroachment of public land / lakes, facility for pedestrians and cyclists on roads, traffic congestion, environment and “others”. As mentioned earlier, “others” was included in case something important was missed in the list. **Less than 5% respondents came up with any other issue.**

Other opinion poll surveys do less than 25,000 responses. From a sample size point of view, this survey is 10 times larger than any survey ever done. The primary reason to conduct such an exercise on such a magnitude was to collect the performance data of the governance as perceived by the voters of their constituencies. Due to limitations of time, budget and logistics, we were able to do around 525 of the 543 Lok Sabha constituencies. We had around 500 respondents in each constituency. The respondents were randomly selected to represent various segments of the population like rural-urban, gender, caste, religion, and income classes. Every care was taken to make the samples fully representative of the population. The accuracy of the survey is 95%, i.e., the true values are within 5% of the survey predictions.

The assessment does not seek to offer in-depth evaluation of specific governance issues. Rather, it seeks breadth, aiming to examine all relevant pillars across a wide number of indicators in order to gain a view of the overall system. Understanding the interactions between various inter-related institutions helps to prioritize areas for reform.

In order to take account of important contextual factors, the evaluation is embedded in a concise analysis of the overall political, social, economic and cultural conditions, the foundations in which our entire system operates.

To keep things simple for ordinary voters, we used a three level scale of High, Medium and Low for importance or priority of each issue, and Good, Average and Bad for performance on each issue. This was converted to a 3 point scale, with scores of 3, 2, and 1 respectively. This in turn was scaled to 10 for ease of comprehension. So a voter may rate garbage clearance as Medium Importance or Priority (score 2 on a 3 point scale or 6.67 on a 10 point scale) and Performance as Bad (score 1 on a 3 point scale or 3.33 on a 10 point scale). The score on each issue was averaged for all voters. Thus any score between 3.33 and 6.67 on any issue like garbage clearance meant priority for all voters was between Low and Medium, or that performance was between Bad and Average (or Below Average), scores between 6.67 and 10 meant Medium to High priority or between Average and Good performance (or Above Average).

The overall score in India, on a scale of 10, for Importance of Issues was 7.51. This meant that the 30 issues presented to them were rated as between Medium and High Priority. In other words, expectation from the Government across India was high. The voters gave an overall performance rating of 5.68 on a scale of 10, to these 30 issues, which meant Below Average performance.

In India, Better Employment Opportunities was by far the highest priority across regional, caste, income, religious and gender categories, getting a score of 7.94, followed by Drinking Water, Better Roads, Public Transport, Electricity, Health, Education, Law and order, Women's Empowerment and safety, and Ration through subsidized means as the Top 10 issues with scores between 7.61 and 7.8 about which people are most concerned.

S. No.	Score (on a scale of 10)	All India
1	Importance of Issues	7.51
2	Performance	5.68

Subsidized food distribution	7.61	5.66	Below Average

Table 3: All India Importance of Issues

KEY FINDINGS

Graph 1: Importance and Performance of Top 10 issues in India

The performance score, given by voters on the issues that they feel are the most important, clearly shows that they want more from their Government. On the most important issue of better employment opportunities for the voters in India, the performance has been rated as the least (5.64 on a scale of 10) among the top 10 important issues. For all the top 10 governance issues, the voters have rated the performance as below average.

TOP 10 PRIORITY ISSUES ACROSS STATES IN INDIA

1. Better Employment Opportunities

Better employment opportunities are the top most priority all across India. The states of Manipur has given it the highest priority score of 9.63 out of 10.

2. Drinking Water

The priority for drinking water is the highest 9.53 in the state of Manipur.

3. Better Roads

The demand for better roads is the highest in Delhi (9.19 out of 10).

4. Better Public Transport

Manipur has the highest priority score 9.69 out of 10 for better public transport.

5. Better Electric Supply

Manipur again has the highest demand for better electric supply with a score of 9.60 out of 10.

6. Better Hospitals/Primary Health Care Centres

Better Hospitals are a top priority in Manipur with a score of 9.57 out of 10.

7. Better Schools

Better schools are a top priority in Manipur with a score of 9.52 out of 10. It is followed closely by Goa and Delhi with scores of 9.35 and 9.15 out of 10.

8. Better Law and Order/Policing

The priority for better law and order is the highest in Manipur 9.66 out of 10 followed by Delhi that has score on the issue of 9.20 out of 10.

9. Empowerment of Women

Manipur has the highest priority 9.51 out of 10 for empowerment of women.

10. Subsidized Food Distribution

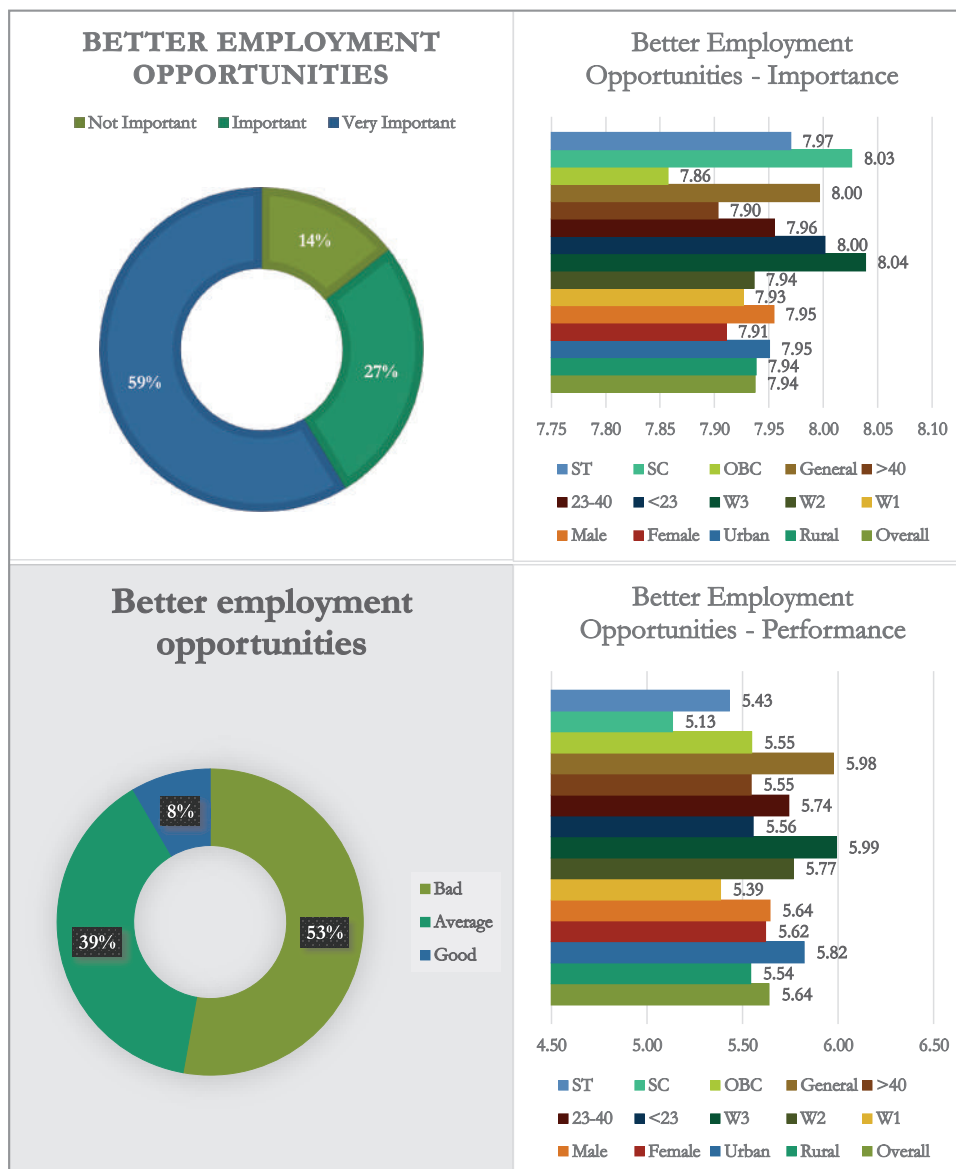

Manipur has given the highest priority of 9.32 out of 10 to subsidized food distribution.

1. JOB OPPORTUNITIES

It is rated as the most important issue across most divides - gender, age, general, OBC, SC/ST categories, rural and urban. This is hardly surprising given the phase of jobless growth India has been going through in recent years.

- On a scale of 10, better employment opportunities score an importance of 7.94 all over India. It is slightly lower in OBC Category (7.86), however, in W3* Category voters score better employment opportunities as 8.04.
- The performance rating given by the respondents on the issue of better employment opportunities is below average across all categories.
- The overall performance rating is 5.64 on a scale of 10.
- The highest rating of 5.99 on a scale of 10 is given by respondents in the W3 category
- The lowest rating 5.13 has been given by respondents in the SC Category

*(W1 = Low Income group, W2 = Medium Income group and W3 = High Income group)

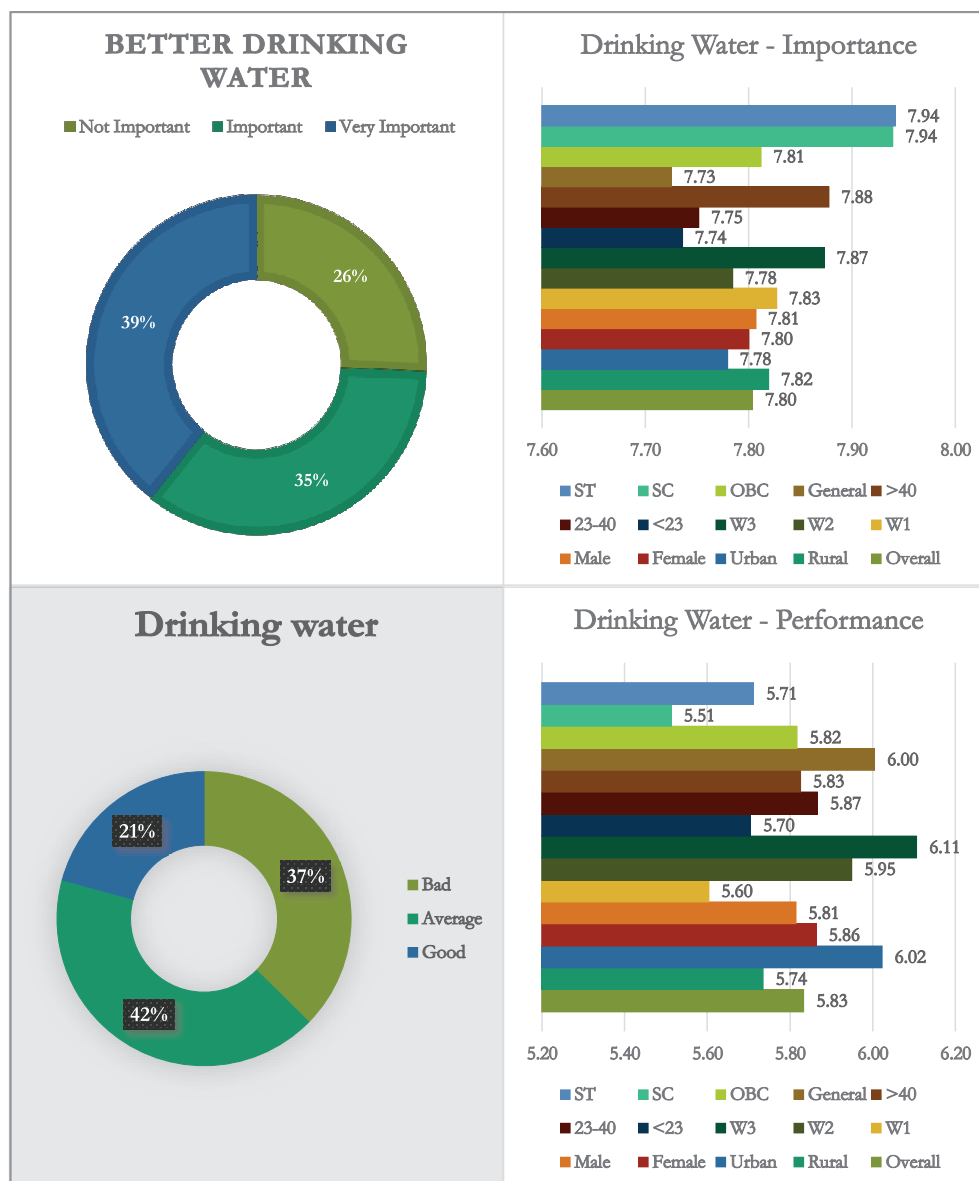

Graph 2: Better Employment Opportunities

2. DRINKING WATER

Like jobs, drinking water is an issue that cuts across most divides. Interestingly though, it ranks second in General category and fourth in urban areas, 1st time voters and 23-40 years age group but seventh in above 40 age group. Similarly, people from the high-wealth category rank it way lower than those from relatively less well-off backgrounds. This is also true of ST category voters as compared to OBC and SC category voters.

- There is mixed view between better public transport and drinking water. While better public transport and training for jobs are a priority in rural areas, drinking water comes higher on priority for urban voters.
- **The performance rating given by the respondents on the issue of drinking water is below average across all categories.**
- **The overall performance rating is 5.83 on a scale of 10.**
- The highest rating of 6.11 on a scale of 10 is given by respondents in the high income category W3 voters.
- SC category respondents have given the lowest rating of 5.51.

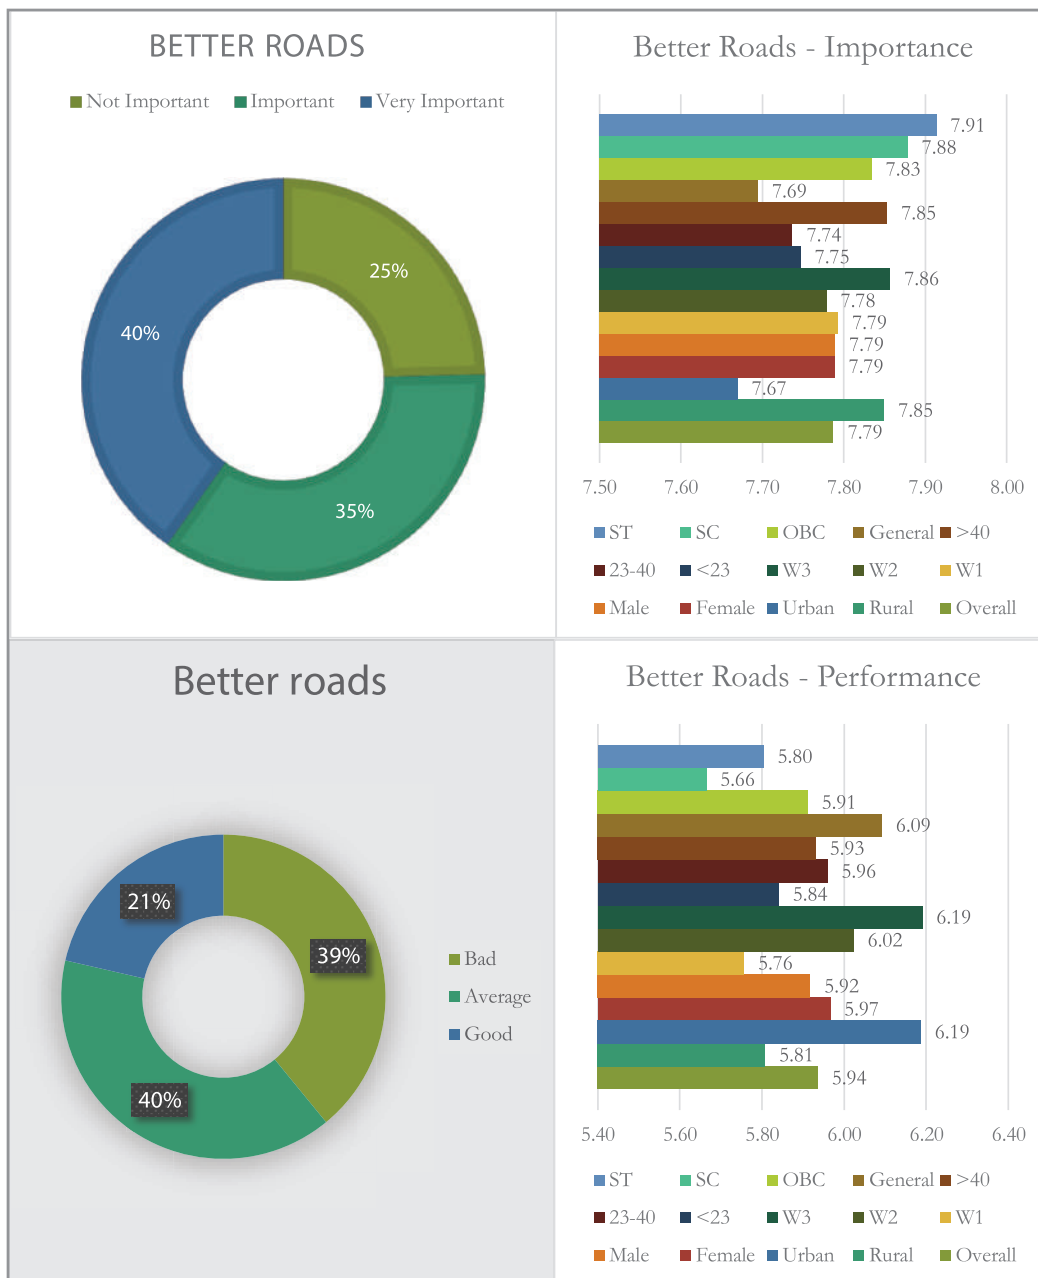

Graph 3: Drinking Water

3. ROADS

Unlike jobs and electricity supply, how important roads are ranked as an issue differs from segment to segment. For instance, it is the third top issue for respondents above 40 but only the fifth most important one for 1st time voters and voters between the age group of 23-40 years. Not surprisingly, it also ranks lower for those in the SC and ST category than for those from the general and OBC category.

- The performance rating given by the respondents on the issue of better roads is below average across all categories.
- The overall performance rating is 5.94 on a scale of 10.
- The highest rating of 6.19 on a scale of 10 is given by respondents in the urban and high income group W3.
- SC Category respondents have given the lowest rating of 5.66.

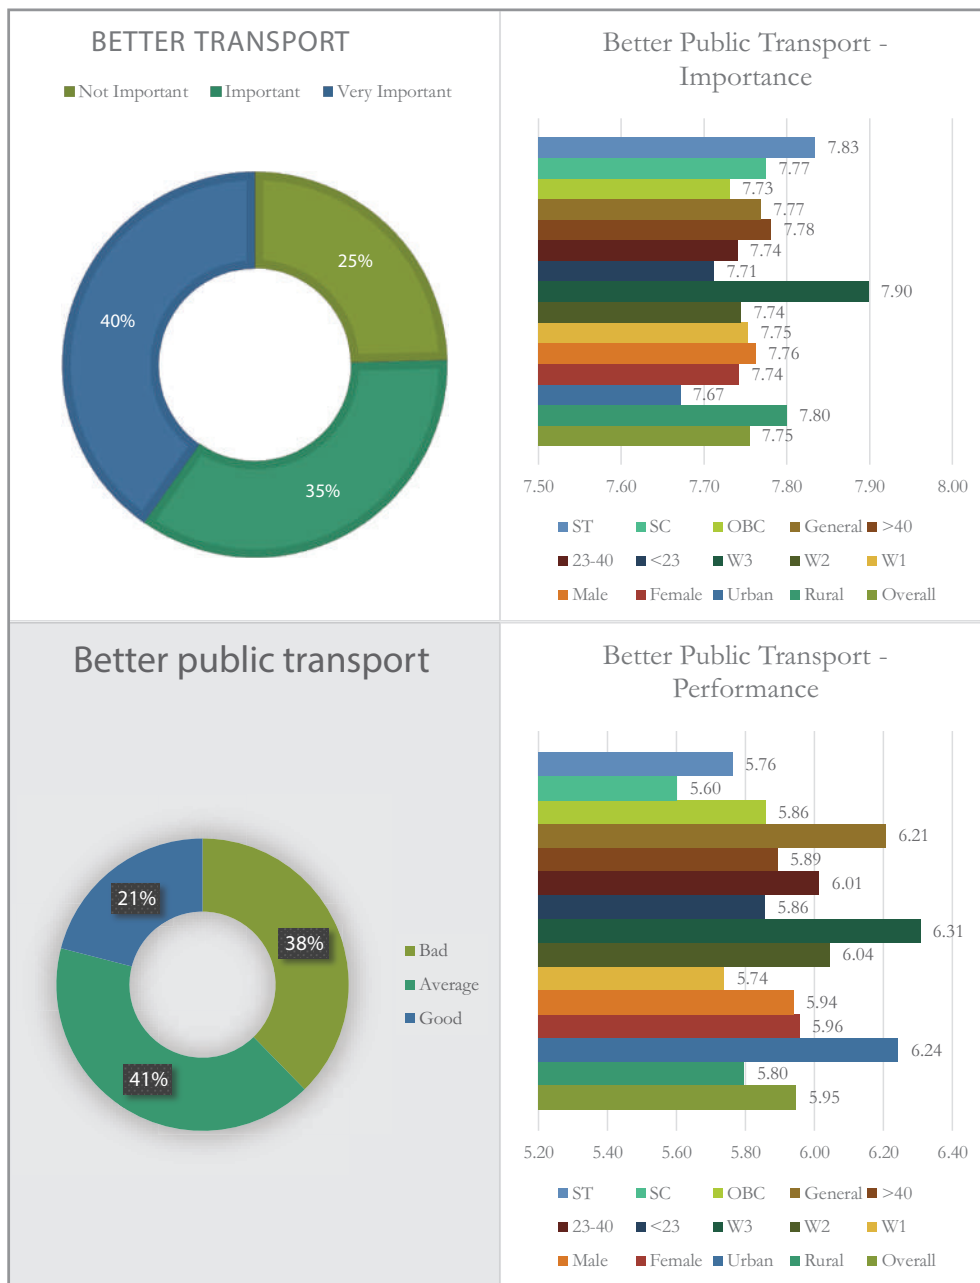

Graph 4: Better Roads

4. PUBLIC TRANSPORT

Public Transport as an issue varies quite a lot across different categories of respondents, though it remains in the top 10 in most cases. Surprisingly, it ranks as low as ninth and tenth for ST category and 1st time voters and at sixth position for voters in urban areas and in the age group 23-40 years respectively.

- The performance rating given by the respondents on the issue of better public transport is below average across all categories.
- The overall performance rating is 5.95 on a scale of 10.
- The highest rating of 6.31 on a scale of 10 is given by respondents in W3 Category.
- SC Category respondents have given the lowest rating of 5.60.

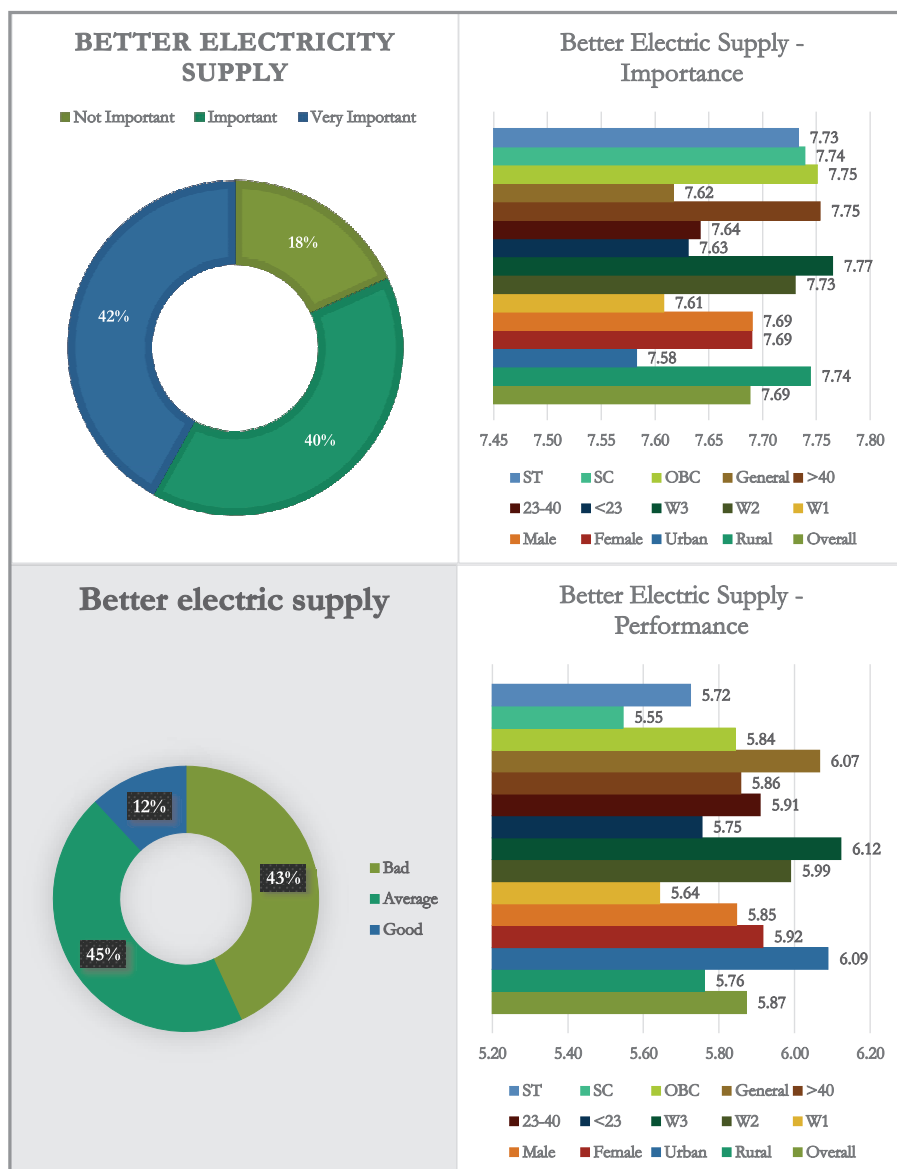

Graph 5: Better Public Transport

5. ELECTRIC SUPPLY

While *better employment opportunities* is the most important issue for voters in India overall, economic infrastructure issues like *better electric supply* and *better roads* are not far behind and trump clean drinking water, better schools, healthcare etc. as the most important issues for India.

- Like jobs, electricity supply remains an important issue for almost all categories of those surveyed, it is clearly a bigger issue in towns and cities than in villages, interestingly more so for women than men and also less important an issue for those from the general category than for those from the reserved categories (OBC, SC, ST).
- The performance rating given by the respondents on the issue of better electric supply is below average across all categories.
- The overall performance rating is 5.87 on a scale of 10.
- The highest rating of 6.12 on a scale of 10 is given by respondents in the high income group W3.
- SC Category respondents have given the lowest rating of 5.55.

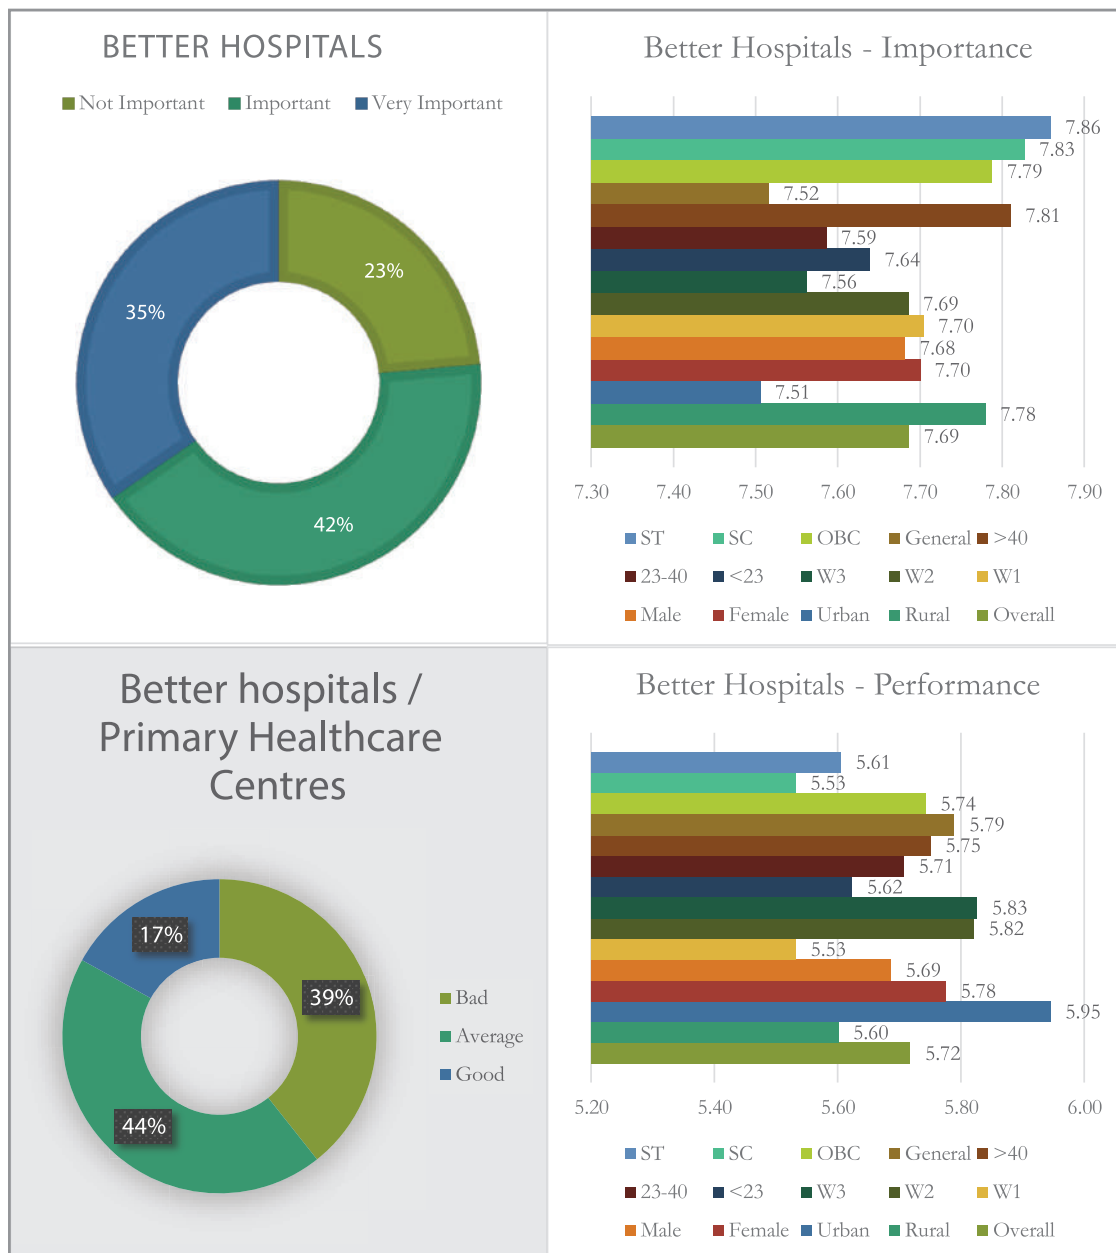

Graph 6: Better Electric Supply

6. HOSPITALS

The lack of quality healthcare facilities obviously agitates nearly everybody, but the rankings show clearly how some have less access to good hospitals than others. It's clearly more of an issue in villages than towns, among the poor than among the well-off and among the younger lot than in older respondents. Better healthcare is amongst the top priorities for voters from the ST category.

- The performance rating given by the respondents on the issue of better hospitals is below average across all categories.
- The overall performance rating is 5.72 on a scale of 10.
- The highest rating of 5.95 on a scale of 10 is given by respondents in the Urban areas.
- SC category respondents have given the lowest rating of 5.66.

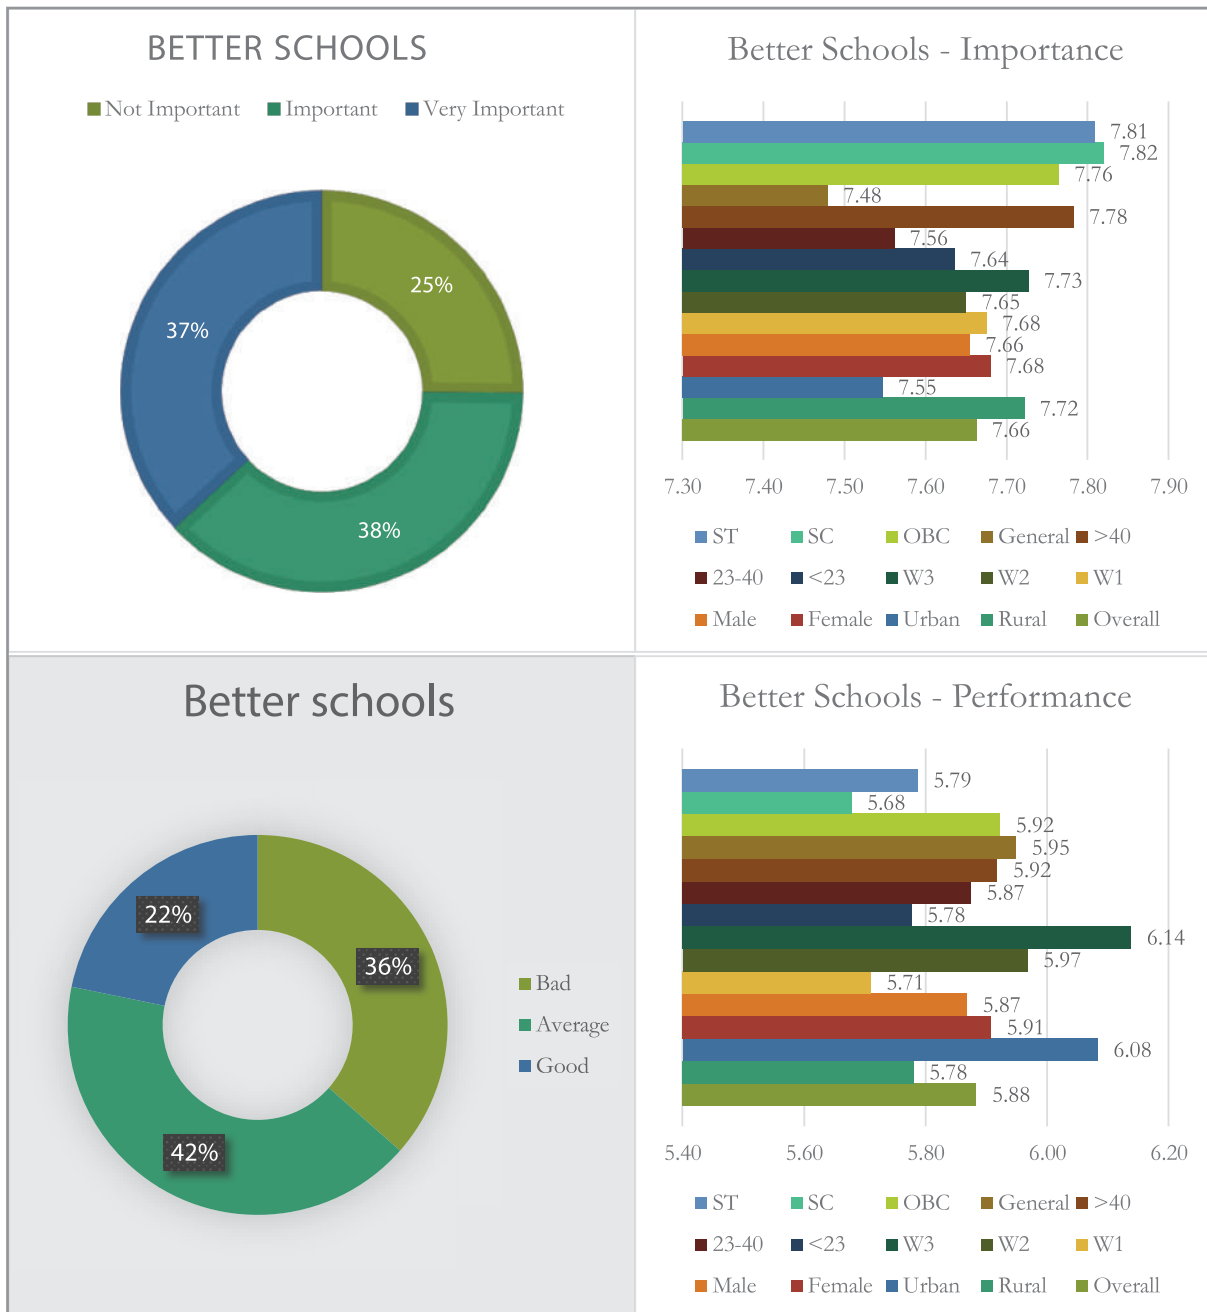

Graph 7: Better Hospitals/Primary Healthcare Centres

7. SCHOOLS

Another issue on which the divide between female and male voters shows up, with the latter clearly feeling the lack of good quality schools much more acutely. Across most categories, however, this issue ranks somewhere between 7th and 10th. The differentiation in ST category is more marked.

- The performance rating given by the respondents on the issue of better schools is below average across all categories.
- The overall performance rating is 5.88 on a scale of 10.
- The highest rating of 6.14 on a scale of 10 is given by respondents in the high income group W3.
- Respondents in the SC Category have given the lowest rating of 5.68.

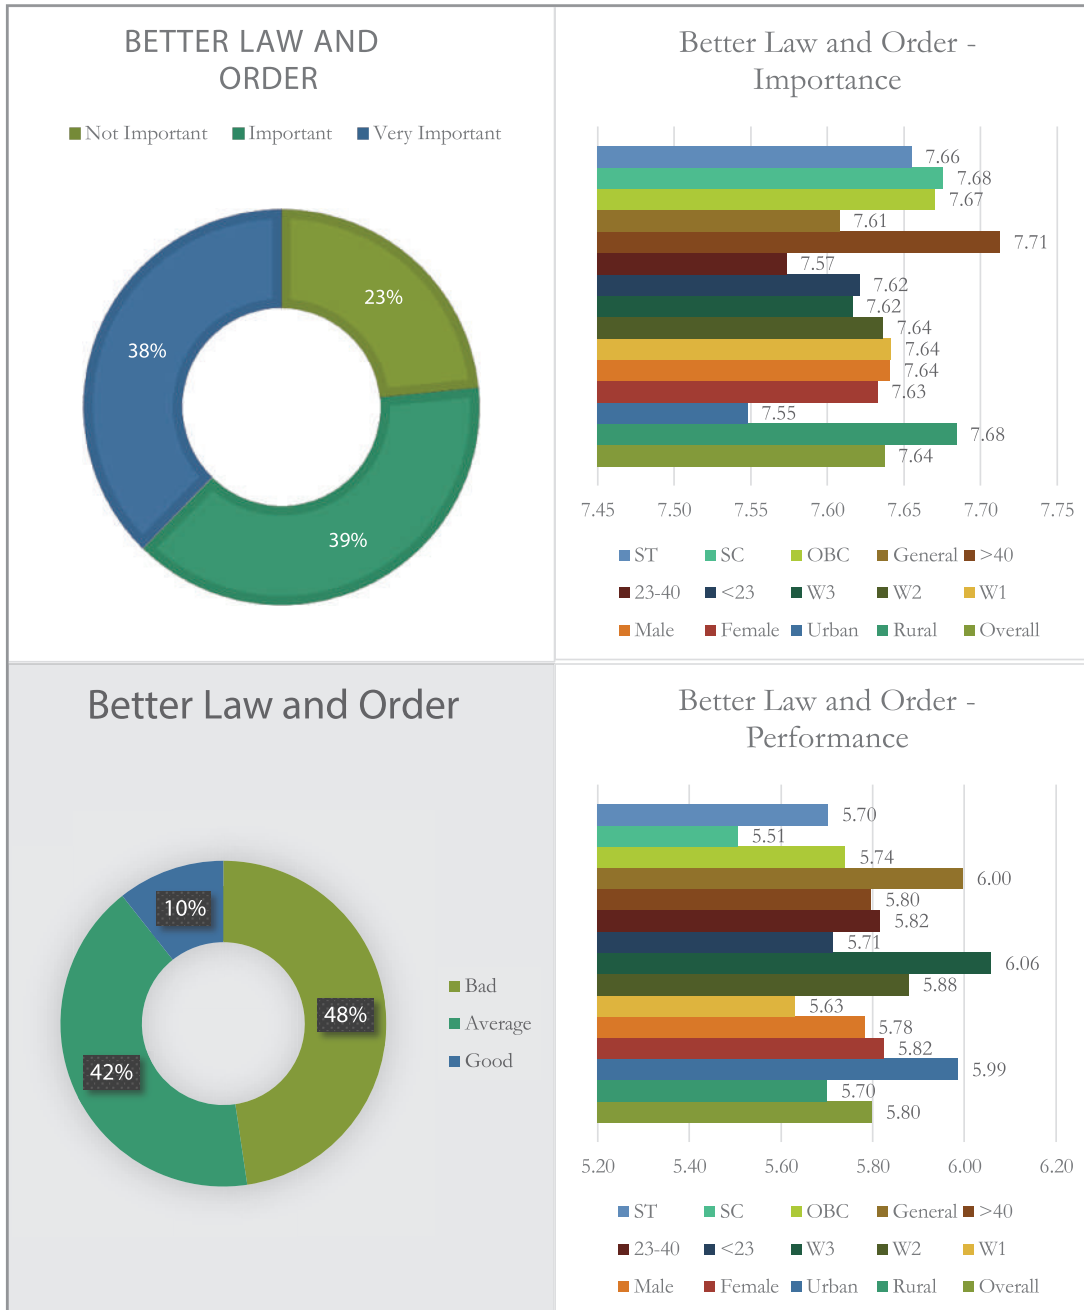

Graph 8: Better Schools

8. BETTER LAW and ORDER

While it remains an important issue for almost all categories of those surveyed, it is clearly a bigger issue for lower income groups, voters in the age group 23-40 years and for the SC category, interestingly not so for high income group, 1st time voters and for voters in the ST category.

- The performance rating given by the respondents on the issue of law and order is below average across all categories.
- The overall performance rating is 5.80 on a scale of 10.
- The highest rating of 6.06 on a scale of 10 is given by respondents in the W3 Category.
- SC Category respondents have given the lowest rating of 5.51.

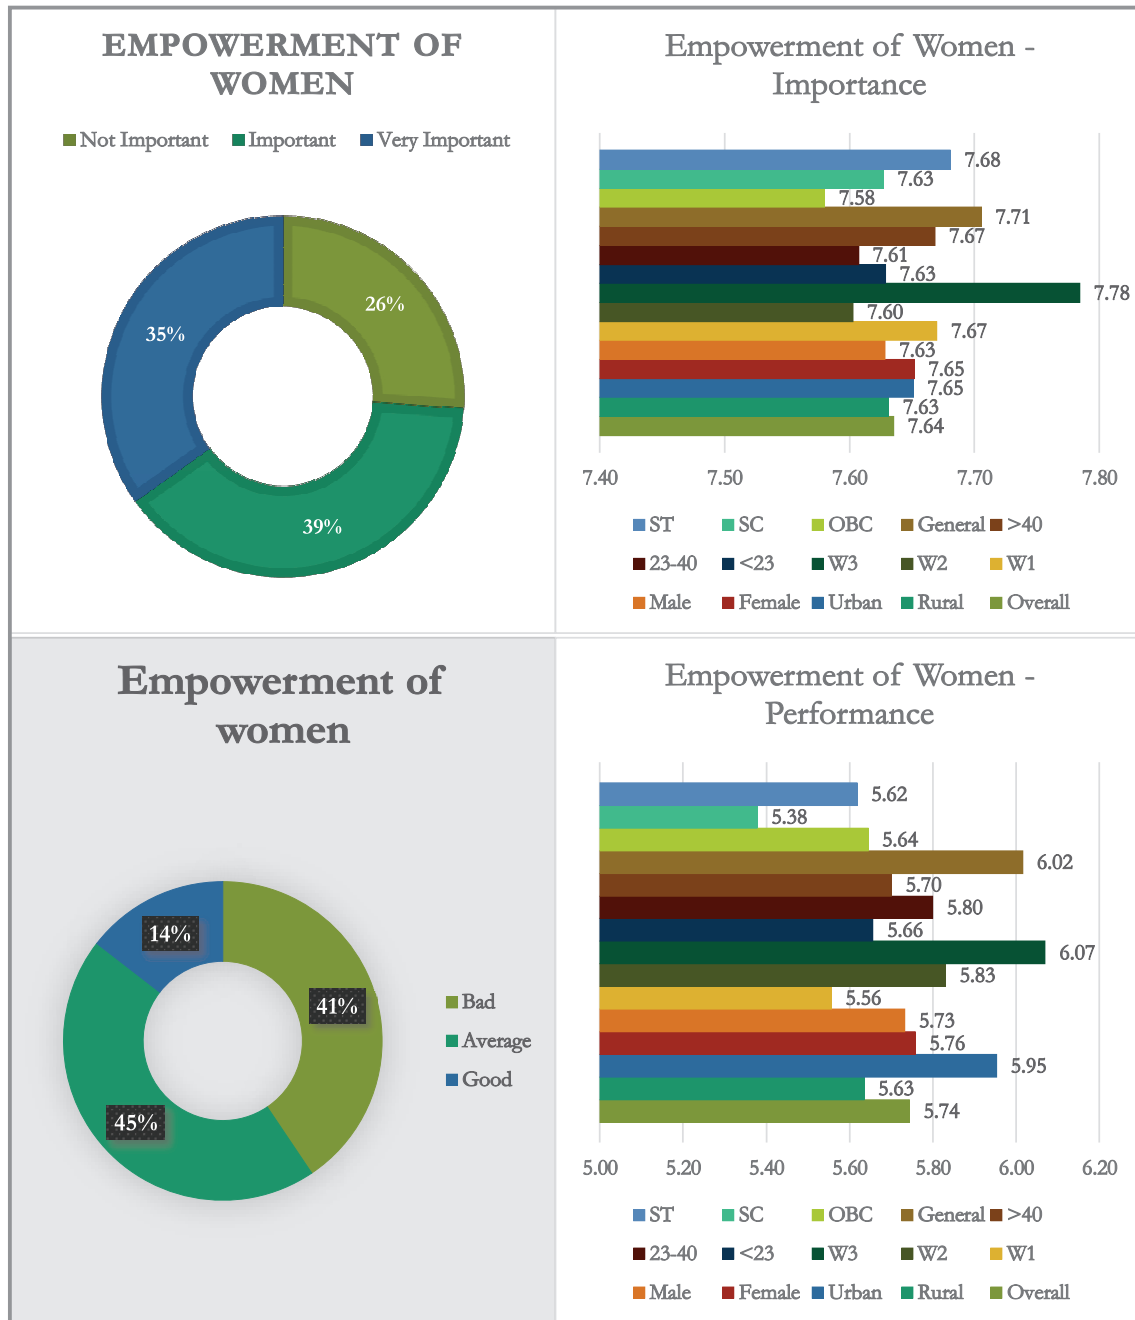

Graph 9: Better Law and Order

9. Empowerment of Women

For most of the categories, empowerment of women does not even figure in the top 10 important issues. However it is slightly important to urban, OBC and SC category voters.

- The performance rating given by the respondents on the issue of empowerment of women is below average across all categories.
- The overall performance rating is 5.74 on a scale of 10.
- The highest rating of 6.07 on a scale of 10 is given by respondents in the high income group W3.
- SC category respondents have given the lowest rating of 5.38.

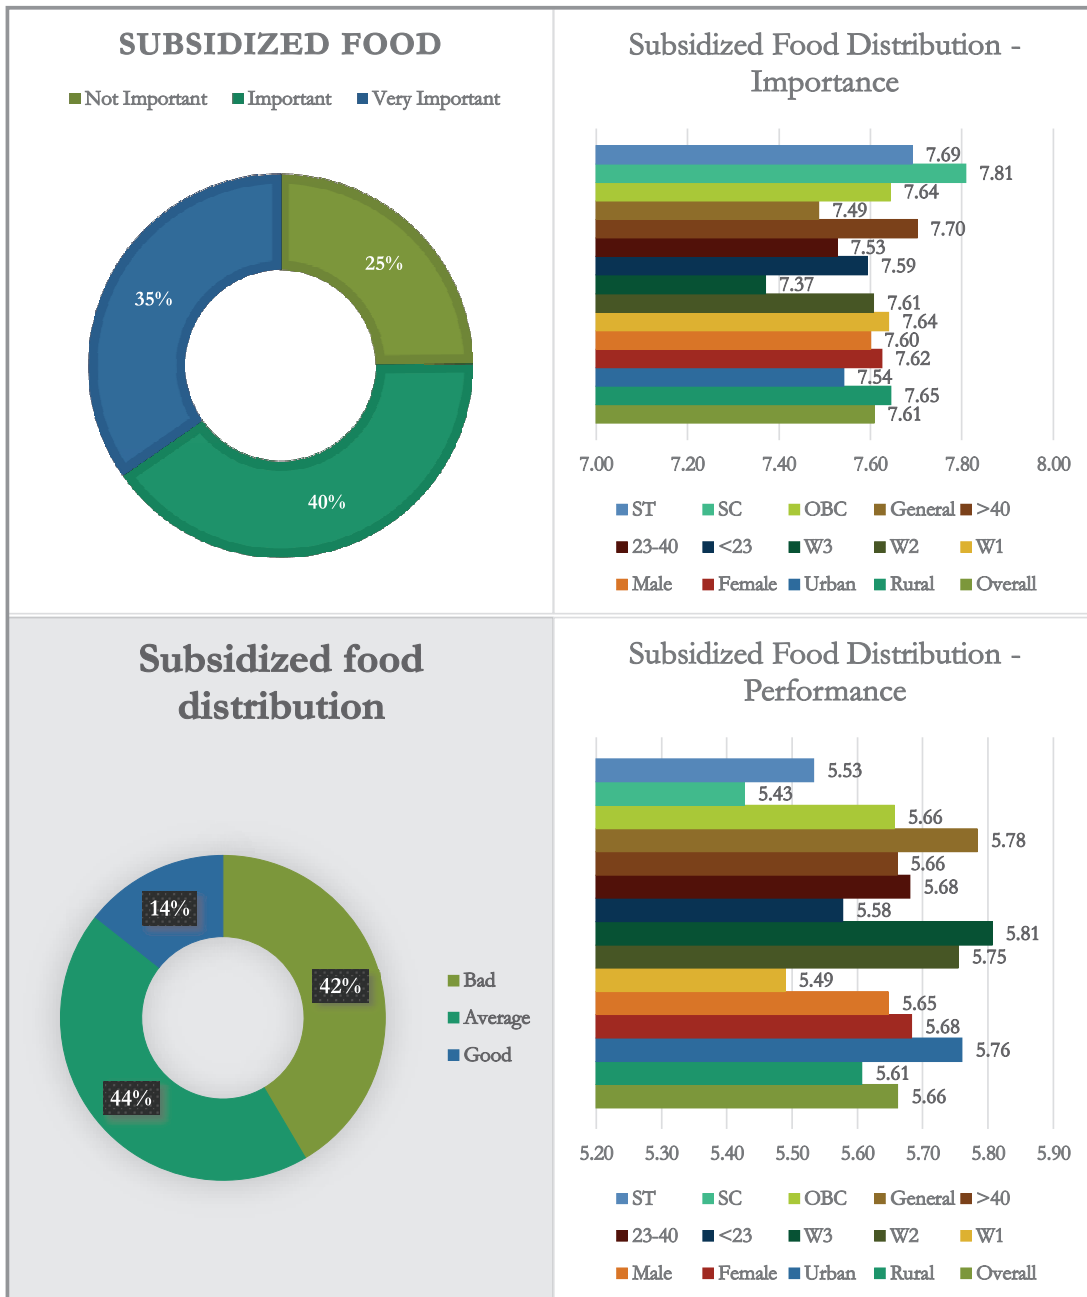

Graph 10: Empowerment of Women

10. Subsidized Food Distribution

This is more important an issue with the OBC and SC category than for General and SC category voters. Similarly, it is more of an issue with the poor than among the well-off voters.

- The performance rating given by the respondents on the issue of subsidized food distribution is below average across all categories.
- The overall performance rating is 5.66 on a scale of 10.
- The highest rating of 5.81 on a scale of 10 is given by respondents in the high income group W3.
- SC category respondents have given the lowest rating of 5.55.

Graph 11: Subsidized Food Distribution

The Comparative ranking of the top 10 issues in India has been given below for all the categories

Comparative rankings of Top 10 issues across various categories in India

	Issues									
	Better employment opportunities	Drinking water	Better roads	Better public transport	Better electric supply	Better hospitals / Primary Healthcare Centres	Better schools	Better Law and Order / Policing	Empowerment of Women	Subsidized food distribution

Table 4: Comparative rankings of Top 10 issues across various categories in India

	Overall All India Rank for priority issues.
	Importance of Issue is same in the particular category as in the All India rankings
	Where the Importance of the particular issue is lower than the corresponding All India rank in that particular category
	Where the Importance of the particular issue is higher than the corresponding All India rank in that particular category
	Where the particular issue does not figure in the top 10 priority issues for that particular category

VOTING BEHAVIOUR

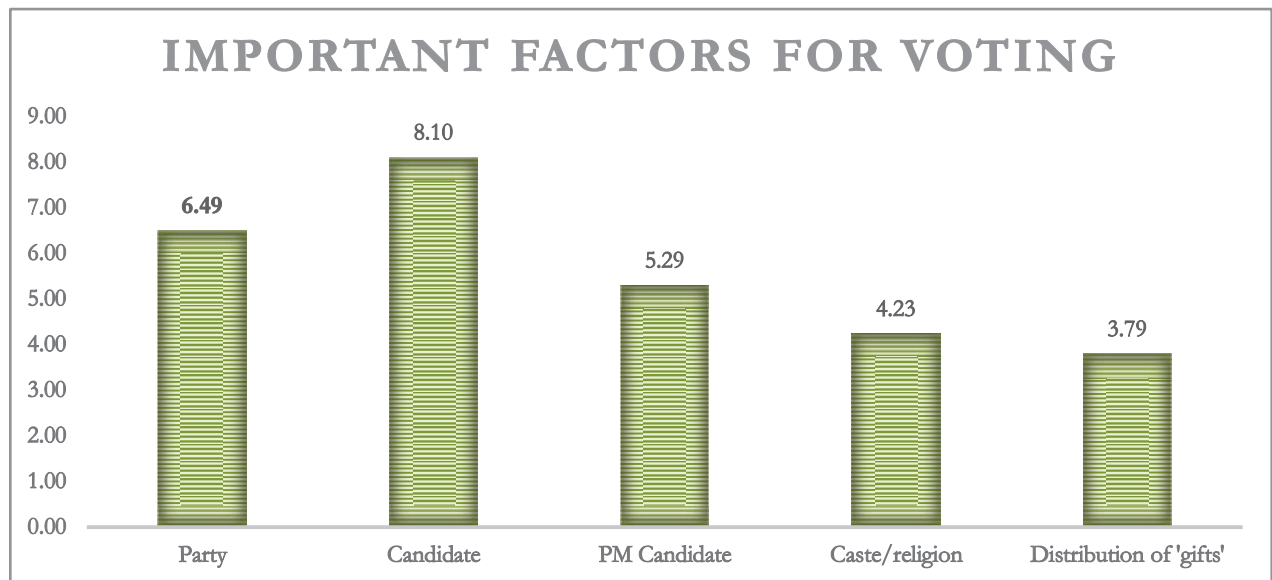

The survey tried to identify the important factors that people take into account before voting for a particular candidate. Issue like whether the candidate matters the most or his Political Party or other issues like caste/religion of the candidate, PM candidate of the party, and distribution of 'gifts' etc. are more important?

Voting Behaviour	All India
Why people vote: (Out of 10)	
Party	6.49
Candidate	8.10
PM Candidate	5.29
Caste/religion	4.23
Distribution of 'gifts'	3.79
Yes/No "knowledge and opinion questions": Do you know (in%)	
Do you know "Gifts" for vote is illegal	83.35%
Do you know of Candidates distributing 'gifts'	26.96%
Do you know You can get candidate criminal record	36.86%
Why do people vote for those with serious criminal records: (in%)	
Candidate does good work	55.35%
Powerful Candidate	22.82%
Spending in elections	36.55%
Cases not serious	29.33%
Voters don't know	33.51%
Caste or religion	24.81%

Table 5: Voting Behaviour - All India

The survey asked respondents about the reason they vote for a particular candidate. They were given five choices—candidate, party, party's prime ministerial candidate, caste and money distribution. Respondents had to rank each of these as either very important, important or not important. Taking the average across respondents for each of these factors, we can gauge the aggregate importance of each of the five factors across all voters.

People in **India** gave more importance to the candidate than party of the candidate. The PM **candidate** of the party and caste/religion of the candidate were the 3rd and 4th most important factors which voters consider before voting. Distribution of gifts was the least important factor for voting in India.

Graph 12: Important Factors for Voting

Important Factors for Voting -All Categories

	All	Rurl	Urbn	<23	23-40	>40	W1	W2	W3	Fem.	Male	Gen.	OBC	SC	ST
■ Distribution of money / liquor / gifts	3.79	3.77	3.83	3.75	3.84	3.74	3.75	3.80	3.59	3.75	3.80	3.79	3.73	3.67	4.09
■ The party's PM Candidate	5.29	5.20	5.48	5.19	5.27	5.35	4.55	5.49	5.11	5.37	5.25	5.19	5.53	4.81	5.50
■ Candidate's caste/religion	4.23	4.19	4.31	4.05	4.29	4.23	4.03	4.29	3.77	4.23	4.23	4.06	4.26	4.36	4.30

Graph 13: Important factors for Voting across various categories

ROLE of CASTE, RELIGION, CRIME and MONEY in ELECTIONS

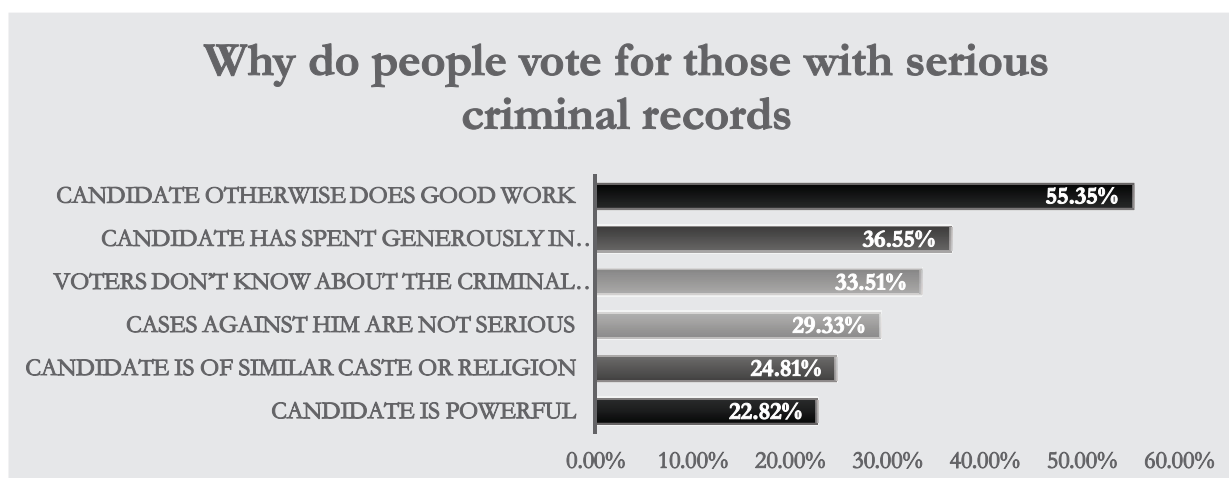

The survey also tried to identify if voters are aware of the use of money and muscle power in elections. Specifically, whether they are aware of distribution of gifts and money by candidates before polls or they have the knowledge about the criminal record of their candidates.

It was observed that nearly **84 per cent** of people in **India** are well aware that distribution of gifts and money by candidates ahead of elections is illegal. However, only 37 per cent people knew that they can get information about the criminal records of their candidates easily.

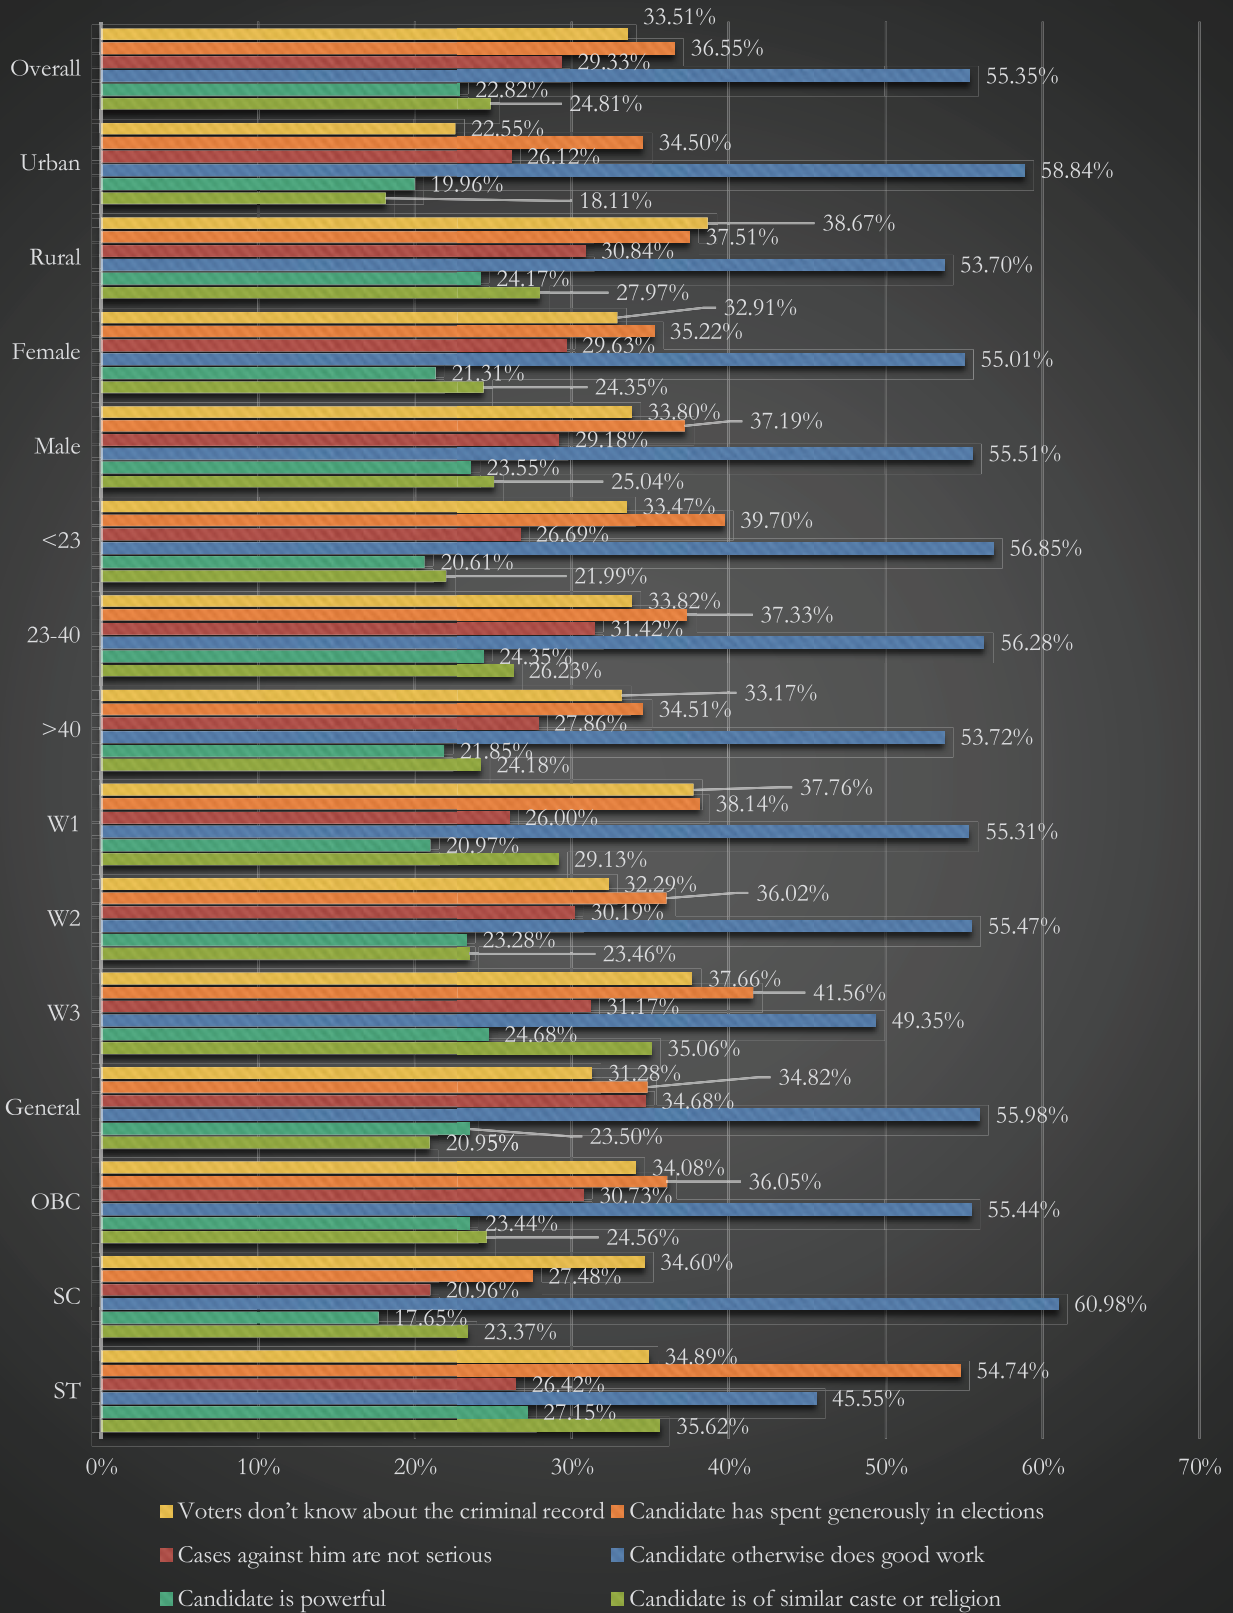

Graph 14: Knowledge of Voters regarding Crime and Money in Elections

Contrary to popular notion, over 50 per cent people in India said that they will ignore the criminal record of their candidates because they feel such candidates have done “good work.” Whereas around 25 per cent people vote for candidates facing criminal charges because they were of their own caste/ religion.

Graph 15: Why do people vote for candidates with serious criminal cases

Why people vote for candidates with criminal cases

Graph 16: Why people vote for candidates with serious criminal cases across various categories in India

If we look at why people vote for candidates with criminal cases across all categories, we can see that in all categories people would vote for candidates with criminal cases if the candidate has done good work.

- 61% SC voters said that they would vote for a candidate with criminal cases if the candidate has done good work. This is the highest % among all the categories.
- 35% general category voters said that they would vote for a candidate with criminal cases if the cases are not serious.
- ST voters are more likely to vote for a candidate with criminal cases if the candidate has spent generously in elections.
- Voting for a candidate from similar caste or religion, even if the candidate has criminal cases, is the highest among ST and high income voters, 36% and 35% respectively.
- Urban voters are the least likely to vote on the basis of caste or religion.
- Among all the categories, the highest, 27% ST voters said that they will vote for a powerful candidate even if he/she has criminal cases against them. On the contrary, only 18% SC voters, which is the least among all categories said that they will vote for a powerful candidate with criminal cases.

CONCLUSION

The priorities of voters and citizens from the Government are not being addressed, and their expectation are not being met.

Therefore, the analysis brings out mainly two important questions to the forefront. What important factors may drive divergence? What can be done to improve congruence? We need to examine whether decisions in policy making, infrastructure, social and economic development etc. are made in favour of some categories of people at the expense of overall social welfare.

The voters have to make a choice from among those candidates that are available. It is assumed that the voters vote for candidates that have as similar opinions as possible with the voters, based on the promises made during election campaigns and in their election manifesto. However, lack of information about the candidates, and the role of money in elections are two basic issues that eventually lead to poor governance. The fact that the electorate has no role once the politician is elected allows the priority of the candidates elected to be determined by the political parties. It is then hoped that the electorate takes care to elect a better politician to represent them.

Political representation is about making constituents' preferences present in politics and governance. Behind these ratings is the daily reality that people living in our country face. The ratings try to capture this and help inform our Government what that number means and how the Government is perceived by the voters of this country.

5	Traffic congestion	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

DISCLAIMER

This survey was conducted to ascertain the most pressing governance issues that voters of India perceive to be affecting their daily lives and also to investigate whether the voters are happy with their respective governments with regard to the addressing of those issues.

The survey was conducted using sound scientific techniques and the consequent findings and reports were prepared using recognized data analysis techniques. The inferences drawn in this report are based on the responses provided by the Indian voters.

This survey is a systematic and scientific attempt to study the gap between governance-demands of the voters of India and the delivery of the respective governments as perceived by the Indian voters. This survey is in no way an attempt to appreciate or denigrate any government(s) or political party or individual or any other organization or institution.

Every effort has been made by ADR to ensure the accuracy and reliability of the data contained in this report.

Anyone using or quoting from this report should acknowledge the source as '*ADR-Daksh 2014 Pan-India Survey Report on Governance Issues*'.

ABOUT ADR

The Association for Democratic Reforms (ADR) was established in 1999 by a group of Professors from the Indian Institute of Management (IIM) Ahmedabad. In 1999, Public Interest Litigation (PIL) was filed by them with Delhi High Court requesting for the disclosure of the criminal, financial and educational background of the candidates contesting elections. Based on this, the Supreme Court in 2002, and subsequently in 2003, made it mandatory for all candidates contesting elections to disclose criminal, financial and educational background prior to the polls by filing a self-sworn affidavit with the Election Commission.

The first Election Watch was conducted by ADR in 2002 for Gujarat Assembly Elections whereby detailed analysis of the backgrounds of candidates contesting elections was provided to the electorate in order to help the electorate make an informed choice during polls. Since then ADR has conducted Election Watches for almost all state and parliament elections in collaboration with the National Election Watch. It conducts multiple projects aimed at increasing transparency and accountability in the political and electoral system of the country.

ACHIEVEMENTS OF ADR

- **January 2015:** ECI awarded the National CSO Award 2014 for 'the Campaign on Voters' Education and Awareness' for carrying out 'Mera Vote Mera Desh' campaign to promote ethical and informed voting in the 2014 Lok Sabha Elections.
- **May 2014:** In Ashok Chavan paid news case, the Supreme Court had passed a judgment holding that Election Commission of India (ECI) has the power to disqualify a candidate in relation to filing of false election expenditure statement under Section 10A of RPA. ADR had intervened in the case supporting the stand of the ECI.
- **April 2014:** Awarded the 'NDTV Indian of the Year- India's Future' in Public Service Category.
- **March 2014:** Awarded Innovation for India Awards 2014 by Marico Innovation Foundation under the Social Category.
- **December 2013:** Awarded the CNN IBN Indian of the Year Award in the category of Public Service, along with Ms Lily Thomas.
- **September 2013:** The Supreme Court ruled that the right to register a "none of the above (NOTA)" vote in elections should apply and ordered Election Commission to provide such a button in the Electronic Voting Machines (EVM). ADR had intervened in the matter.
- **July 2013:** Supreme Court delivered a judgment on a petition filed by Lily Thomas and Lok Prahari NGO, (ADR intervened) setting aside clause 8(4) of the Representation of the People Act, and therefore barring sitting MPs and MLAs from holding office on being convicted in a Court of Law.
- **June 2013:** After over a 2-year-long struggle based on an RTI that was filed by ADR, the CIC delivered a landmark judgment that brought 6 National Parties under the ambit of the RTI Act.
- **January 2013:** Awarded the 'Times of India Social Impact Award' in Advocacy and Empowerment category.
- **December 2012:** ADR/NEW released an analysis of the number of politicians charged with crimes against women. ADR/NEW's recommendations and data was also widely quoted by the Justice Verma Committee in its report.
- **October 2012:** The Election Commission asked the Ministry of Home Affairs to probe violations of the Foreign Contributions Regulation Act (FCRA) and the Representation of Peoples' Act (RPA) by major political parties which reportedly received foreign contributions.
- **August 2012:** ADR won the 'mBillionth Award South Asia' in the category of 'Mobile Innovations for Good Governance' for its PULL SMS programme which allows every mobile user in the country to get information (criminal, financial and educational details) about his/her MP and MLA by sending a simple SMS from his/her phone.
- **December 2011:** ADR won the 'NASSCOM Award' for ICT led Innovation by Multi-stakeholder Partnership for its Election Watch Software with Webrosoft.
- **June 2011:** After a two-year-long RTI battle, crucial information on the 'Registers of Members' Interest' was finally mandated by the Central Information Commission (CIC) to be available in the public domain in June 2011.
- **January 2011:** Details of the movable and immovable assets of 30 Bihar ministers, including that of CM Nitish Kumar, were uploaded on the government website in January, 2011.
- **Feb 3, 2010:** Prime Minister Manmohan Singh asked his Cabinet colleagues to disclose details of their assets and liabilities and refrain from dealing with the government on immovable property.
- **Jan 25, 2010:** Both the Congress President Ms. Sonia Gandhi and the Leader of Opposition in Lok Sabha Ms. SushmaSwaraj of BJP made public statements calling for a consensus on barring candidates with criminal backgrounds from contesting elections.
- **2009:** The number of total serious IPC sections against MPs decrease from 296 in Lok Sabha 2004 to 274 in Lok Sabha 2009.

- **2009:** A large number of candidates with serious pending cases that contested Lok Sabha 2009 elections like Pappu Yadav, Atiq Ahmed, Mukhtar Ansari, Akhilesh Singh, etc. lost.
- **2008:** Overall, the percentage of candidates with pending criminal cases came down from 20% to 14% in the assembly elections held in the country in 2008 for the states of Rajasthan, Chhattisgarh, Madhya Pradesh, NCT of Delhi and Mizoram.
- **2008:** In the Karnataka Assembly Elections, 2008, there was a reduction in the number of candidates with serious offenses put up by parties. It came down to 93 in 2008 from 217 in the 2004.
- **April 2008:** ADR obtained a landmark ruling from the Central Information Commission (CIC) saying that Income Tax Returns of Political Parties would now be available in the public domain along with the assessment orders.
- **2005:** Bihar Election Watch in October-November 2005 resulted in intense pressure on the Chief Minister Designate due to the extensive media coverage of candidate background. As a result, for the first time, Bihar has a Council of Ministers without any known criminal record.
- **September 2003:** A Bill on Electoral Expenses was passed in September 2003. The EC has taken it one-step forward and asked candidates to file a statement of expenses in every three days during the campaign.
- **May 2002 and March 2003:** ADR won two milestone judgments on disclosure of candidate's criminal and financial records from the Supreme Court. Since then, 1200 NGOs from all over the country are supporting ADR and ADR in partnership with its partners has organized Citizen Election Watch for all major elections.
- **2002:** The Election Commission completed a massive exercise based on the Gujarat Election Watch report to verify information filed by candidates in the nomination papers and affidavits, and has started proceedings against candidates with false declarations.

BOARD OF TRUSTEES

Prof. Trilochan Sastry (Founder and Trustee) has a Bachelors in Technology from IIT, Delhi, an MBA from the Indian Institute of Management (IIM), Ahmedabad, and a Ph.D. from the Massachusetts Institute of Technology (MIT) USA. He taught for several years at Indian Institute of Management (IIM), Ahmedabad after which he moved to IIM, Bangalore. Earlier he was Dean at IIM - B and now he is a faculty there. He has taught in other Universities in India, Japan, Hong Kong and United States and has published several academic papers in Indian and International journals. Has received national award for research and teaching.

Prof. Jagdeep S. Chhokar (Founder and Trustee) has a Ph.D. from Louisiana State University, USA and is a former Director In-charge of Indian Institute of Management, Ahmedabad. He had earlier worked with the Indian Railways as a mechanical engineer and manager for over a decade, and as international marketing manager with a public sector organization for four years. He has also taught at Universities in Australia, France, Japan and the US.

Dr. Ajit Ranade (Founder and Trustee) has Bachelors in Technology from IIT, Mumbai, an MBA from the Indian Institute of Management, Ahmedabad, and a Ph.D in Economics from Brown University, USA. Has taught at the Indira Gandhi Institute of Development Research (IGIDR), Mumbai for the five years, before which he has also taught at other Universities in the USA. Has also published several academic papers and has participated in several national and international seminars. He was Professor ICRIER, New Delhi.

Prof. Sunil Handa (Founder and Trustee) has Bachelors in Engineering from BITS, Pilani and an MBA from the Indian Institute of Management, Ahmedabad. Is a leading industrialist who has founded Core Healthcare and Core Emballage, Ahmedabad. Has set up the Eklavya Education Foundation with the mandate of significantly contributing to school education in India. Has taught several times as a visiting faculty at the Indian Institute of Management, Ahmedabad.

Dr. Kiran B. Chhokar (Trustee) is a Cultural Geographer with a Ph.D. from Louisiana State University (USA) and a BA and MA from Aligarh Muslim University. She heads the Higher Education Programme at the Centre for Environment Education (CEE) and has been visiting faculty at Portland State University, USA. Dr Chhokar is co-editor of *Asian Women and Their Work: A Geography of Gender and Development* (1998) and of *Understanding Environment* (2004), and is the series editor of the *EnviroScope* series of thematic manuals for college teachers, developed in collaboration with the World Resources Institute, USA. She is currently working in collaboration with the University of Central Lancashire, UK, on developing a blended learning programme on Ecotourism, Conservation and Development. She is also founder member of MahilaSwarajAbhiyan, a network of organizations in Gujarat working to promote value-based governance in society particularly through elected and other women leaders.

Ms. Kamini Jaiswal (Trustee) is a senior Advocate of the Supreme Court of India. She is also the Secretary of the Center for Public Interest Litigation.

Mr. Jaskirat Singh (Trustee) has a Bachelor in Technology degree from IIT BHU, Varanasi. He is Founder and CEO of Webrosoft Solutions (P) Ltd, providing IT services. He (along with ADR) is recipient of NASSCOM social Innovation Award 2011 for most innovative use of IT to process and disseminate election candidates information to voters all over India.

Dr. Vipul Mudgal (Trustee) is a visiting Senior Fellow at the Centre for the Study of Developing Societies (CSDS), Delhi, and also heads the Inclusive Media for Change project, which works to build bridges between mainstream media and rural India's marginalized sections. Dr. Mudgal has earlier held senior editorial positions for 25 years as senior editor/ correspondent/ Resident Editor at the Hindustan Times, India Today, BBC World Service and Asia Times. He has received Nehru Fellowship at the University of Leicester and Jefferson Fellowship by the East-West Centre, Hawaii, in USA.

THE TIMES OF INDIA | THURSDAY | APRIL 3, 2014

1 JOB OPPORTUNITIES

Rated the most important issue across most divides – gender, age, wealth categories, rural and urban. This is hardly surprising given the phase of jobless growth India has been going through in recent years. However, it is not necessarily the most important issue in every state. In fact, there are even states in which it is not rated among the ten most important issues.

In Kerala and Karnataka, this is not among the 10 top issues

2 DRINKING WATER

Like jobs, an issue that cuts across most divides. Interestingly though, it ranks second in urban areas but third in rural ones. Similarly, people from the high-wealth category rank it somewhat lower than those from relatively less well-off backgrounds. This is also true of very young voters as compared to the slightly older ones.

It's the top issue in states like Tamil Nadu, Karnataka and Delhi, but not in the top 10 in Kerala

3 ROADS

Unlike jobs and drinking water, how important roads are ranked as an issue differs from segment to segment. For instance, it is the second top issue for rural respondents but only the seventh most important one for urban residents. Not surprisingly, it also ranks lower for those in the high-wealth category than for those from lower economic strata.

It's the top issue in Maharashtra and Rajasthan, but ranks only 10th in Kerala and 8th in Punjab

4 PUBLIC TRANSPORT

Its ranking as an issue varies quite a lot across different categories of respondents, though it remains in the top 10 in most cases. Surprisingly, it ranks as high as second for high-wealth individuals, an indication perhaps that good mass transit systems could reduce private vehicles significantly.

This ranks no. 2 as an issue in Gujarat, but is surprisingly not in the top 10 in Uttar Pradesh

The Association for Democratic Reforms (ADR) and Daksh came together to conduct a survey of over 250,000 people across 525 Lok Sabha constituencies – perhaps the largest-ever such exercise in any one country. TOI brings you the issues people thought were most important, according to the survey. Corruption, interestingly, was not among the top 10!

ADR-DAKSH NATIONAL VOTERS SURVEY

WHAT PEOPLE WANT

ISSUES	RANKING	
	INDIA	DELHI
Better job opportunities	1	8
Drinking water	2	1
Better roads	3	5
Better public transport	4	6
Better electric supply	5	3
Better hospitals	6	2
Better schools	7	7
Better law & order	8	4
Empowerment of women	9	9
Security for women	10	Not Top 10

6 HOSPITALS

The lack of quality healthcare facilities obviously agitates nearly everybody, but the rankings show clearly how some have less access to good hospitals than others. It's clearly more of an issue in villages than towns, among the poor than among the well-off and among the older lot than in younger respondents.

This is ranked 2nd as an issue in MP and third in Bihar, but in Andhra Pradesh, Gujarat and Kerala it does not rank among the top 10

7 SCHOOLS

Another issue on which the divide between the urban and rural areas shows up, with the latter clearly feeling the lack of good quality schools much more acutely. Across most categories, however, this issue ranks somewhere between 7th and 10th. The differentiation across states is more marked.

Among all states, Karnataka and Maharashtra ranked this the highest at no. 3

8 LAW AND ORDER

Yet again, rural respondents rank it higher than urban ones and, somewhat surprisingly, men rank it a more important issue than women. Across states, there is a very wide variation with some ranking it as high as 3rd and others not putting it in the top 10.

Predictably, it ranks as high as no.3 in UP, while in many others including most southern states, it is not in the top 10

9 EMPOWERMENT OF WOMEN

Once again, there is a visible rural-urban divide, with city and town dwellers ranking this the sixth most important issue but rural voters placing it 10th. There is, however, no real gender divide on this issue. The mid-wealth category seems less concerned about it than either of the two extremes.

It ranks as the topmost issue in Andhra Pradesh and as high as no.3 in Gujarat and no. 4 in Kerala, MP and Punjab

5 ELECTRIC SUPPLY

While it remains an important issue for almost all categories of those surveyed, it is clearly a bigger issue in villages than in towns and cities, interestingly more so for men than women and also less important an issue for those on either extreme of the wealth range than for those in the middle. There are also states in which it doesn't figure among the top 10 issues at all.

It's the top issue in Bihar and ranked second in UP, but in states like Punjab, Karnataka and MP it is not among the 10 biggest issues

10 SECURITY FOR WOMEN

Nowhere is the urban-rural divide as clear as this. In urban areas, this is ranked the third most important issue. In contrast, rural respondents do not place it in the top 10 issues. Interestingly, however, the two genders do not rate the issue very differently.

This issue is not in the top 10 in many states, but ranks as high as no.4 in Andhra, Maharashtra and Gujarat

WHY PEOPLE VOTE

What are the factors that determine who people vote for? The ADR-Daksh survey checked it out and found that candidates matter more than parties or PM candidates. Contrary to the popular notion, factors like caste and freebies seem to sway "general" voters more than those from SC/ST or OBC.

	Overall Score	General	OBC	SC	ST
Party	6.70	6.74	6.67	6.53	6.94
Candidate	7.28	6.96	7.48	7.60	7.37
PM Candidate	5.98	6.20	5.96	5.68	5.70
Caste/Religion	5.11	5.47	4.94	4.73	4.87
Distribution Of 'Gifts'	4.36	4.53	4.26	4.17	4.27

FOR TAX EVADERS, THE GOING GETS TOUGH

In a first, candidates without a PAN card and with assets of over Rs 5 crore or those declaring a jump of Rs 2 crore in value of immovable assets since last polls will come under the EC and I-T Dept's scanner. The idea is to weed out tax-evaders from the poll fray

6 If the youth want a change in the country, they have to vote. We always keep on complaining... but if you (youth) become the change you want to see, then everything will go good | **RANBIR KAPOOR**

Caste/Religion	5.11	5.47	4.94	4.73	4.87
Distribution Of 'Gifts'	4.36	4.53	4.26	4.17	4.27

SMALLER PARTIES THAT PLAYED BIG

In the 2009 Lok Sabha elections, BSP fielded more candidates than BJP and Congress. The party contested in 500 constituencies. This was higher than Congress's 440 and BJP's 433. Samajwadi Party also tried its luck in 95 constituencies.

6 If the youth want a change in the country, they have to vote. We always keep on complaining... but if you (youth) become the change you want to see, then everything will go good | **RANBIR KAPOOR**

ADR-DAKSH SURVEY

Marked or Made Their Mark?

A survey covering 250,000 people across 500-plus Lok Sabha seats found out what issues people think are most important and how they rate their MP on those issues. Tackling some of the issues may not really be part of an MP's job, but voters do expect them to do something about them. See how some of our best known leaders fared in this perception survey when rated on a scale of 10

City's thumbs down to governance

ADR's Countrywide Survey Reveals People Are Unhappy Elsewhere Too

Trilochan Sastry

How different are India's two biggest metros from the rest of the country when it comes to elections and voting behaviour? How do they compare on awareness? What are the major considerations when voting? To what extent does money and crime affect them?

These questions have been answered in the country's largest ever voter survey of over 2.5 lakh voters in about 525 Lok Sabha constituencies carried out by Association for Democratic Reforms (ADR) with the help of Daksh, a Bangalore-based NGO.

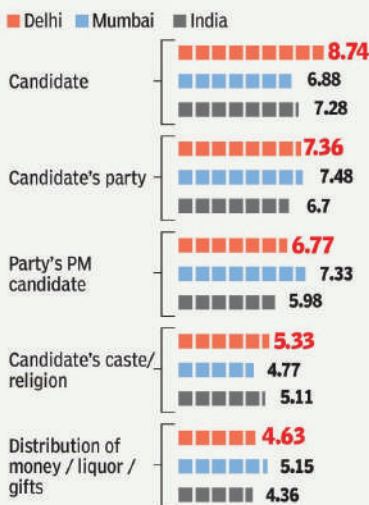

The survey also looks at how Delhi and Mumbai compare with the rest of the country on governance issues like employment, basic essential services, law and order and infrastructure. Also how do the metros' voters rate the performance on governance?

As the graphic shows, there are some significant differences. In Delhi, voters give much greater importance to the local candidate than to the party or the PM candidate. On a scale, Delhi voters give a weightage of 8.74 to the local candidate, 7.36 to the party and 6.77 to the PM candidate. Mumbai, on the other hand, gives maximum weightage to the party, followed by the PM candidate with the local candidate coming last. In both metros and rest of India, voters claim that caste or religion does not matter, and neither does the distribution of money, liquor and gifts.

On the issue of candidates with serious criminal cases, only 14% of the Delhi respondents were willing to give an answer. All of them said we should not vote for such candidates but one is not sure if

HOW METROS VOTE

FACTOR INFLUENCING VOTING SCORE ON 10-POINT SCALE

this is just a pious intention. In Mumbai, however, 74.1% said we should not vote for such candidates. Mumbai is similar to the rest of the country in this respect. However, Mumbai voters seem to be open to facing this question as only 55% of respondents around India were willing to answer it compared to 93.6% in Mumbai.

On awareness of basic electoral laws and availability of information, the two metros are ahead of the rest of the country. In Delhi, 84.7% and in Mumbai 67.2% said they knew that distribution of money, liquor, gifts etc. for votes is illegal. The all India score is 68.7%. When it came to admitting they knew of distribution of gifts for votes, Delhi with 45.3% and Mum-

bai with 48.2% were ahead of the all India average of 34%. Voter awareness of the fact that criminal records of candidates are publicly available is very low with Delhi at

The top priorities that are common to Delhi and Mumbai are drinking water, healthcare, law and order, roads, public transport, security of women and lower prices

54.5%, Mumbai at 43.9% and India as a whole at only 35.1%. Asked why people vote for candidates with serious criminal records, the major reason given was that the candidate

Do you think people should vote for seriously tainted candidates? Figs in %

Those who knew

Figs in %	DELHI	MUMBAI	INDIA
'Gifts' for vote is illegal	84.7	67.2	68.7
Of candidates distributing 'gifts'	45.3	48.2	34
A candidate's criminal record is available	54.5	43.9	35.1

Why do people vote for those with serious criminal records Figs in %

Candidate does good work	DELHI	MUMBAI	INDIA
	63	67.3	68.15

otherwise does good work. Issues like caste, religion and spending in elections were not seen to be significant.

On voter priorities, the two metros seem to be most demanding. A list of 30 items was given to the respondents. They were to identify each issue as either very important, important or not important. Delhi found almost everything very important. The average importance score on a 10-point scale was 9.17. Mumbai had a score of 8.56 while India trailed behind with 7.69.

The top priorities that are common to Delhi and Mumbai are drinking water, healthcare, law and order, roads, public transport, security of women and lower prices. Delhi gives greater weightage to electricity supply,

schools, employment and a strong defence whereas Mumbai gives greater preference to reducing traffic congestion, trust in the MP, garbage clearance and corruption. The rest of India broadly shares these priorities with the two metros except for the demand for subsidised food through PDS/ration and higher prices for farm produce for farmers.

How do the voters' rate the performance of the government on these priorities? On all the governance parameters, the performance is rated as below average. On a 10-point scale, a score of 6.67 or above is above average and anything below that is below average. In Delhi, the average performance on the top priorities is 5.94 compared to an importance score of 9.17 on 10. In Mumbai, it is 5.12 against an importance score of 8.56 and for India it's 5.85 compared to an importance score of 7.6. People across India, including Delhi and Mumbai, are unhappy with the quality of governance.

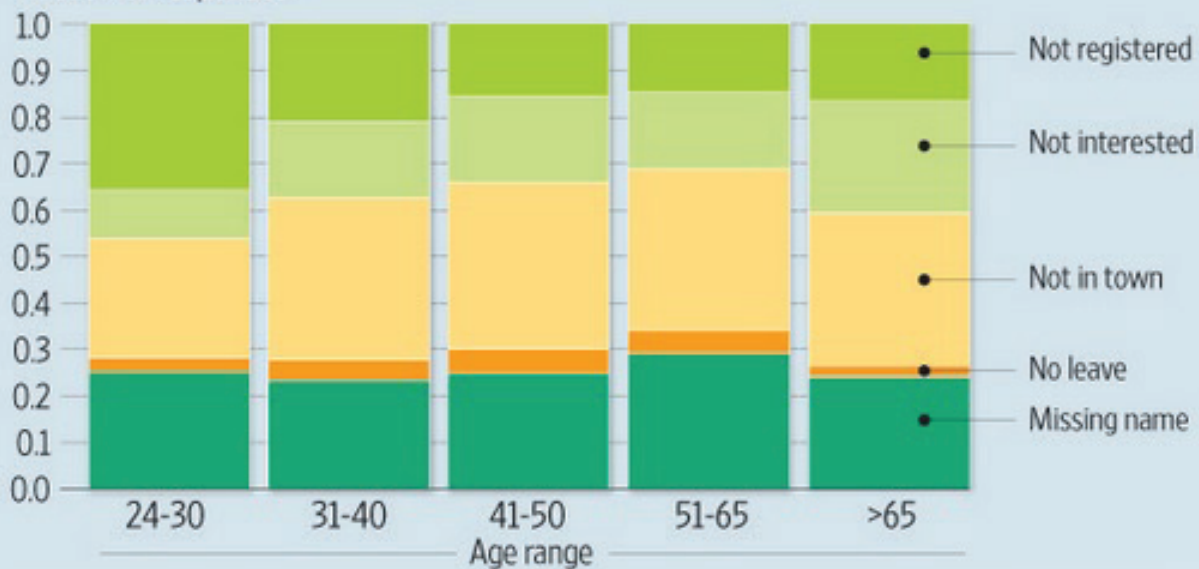

In conclusion, people in Delhi are the most demanding, followed by Mumbai and then the rest of the country. At all places, people rate government performance well below average. Of India's top 10 priorities, Delhi and Mumbai share six, namely drinking water, health, law and order, roads, public transport, women's security and lower prices. Delhi wants better electricity supply, schools, employment and a strong defence, and Mumbai better work on reducing traffic congestion, more trust in the MP, garbage clearance and removal of corruption.

INDIA'S MPs NEED TO DO BETTER

Several high-profile MPs who are in the reckoning again in Elections 2014 have failed to make a difference even in their own Lok Sabha seats

On April 7, as the world's biggest democratic exercise kicks off, several MPs of the outgoing 15th Lok Sabha will try their luck at the hustings again. The India Today Group decided to take stock of the performance of the sitting Lok Sabha members based on two broad parameters—actual performance in Parliament and public perception in their constituencies. Satark Nagrik Sangathan (SNS), a Delhi-based citizen's vigilance group led by Anjali Bhardwaj, created a score based on actual performance of MPs in the Lok Sabha. The perception-based scores and ratings were provided by Delhi-based Association for

Democratic Reforms (ADR), founded by former IIM-Bangalore dean Trilochan Sastry, which conducted a survey among 250,000 respondents spread across 525 Lok Sabha constituencies between December 2013 and February 2014. Our team of experts—Ashok Lahiri, Arvind Virmani, Surjit S. Bhalla and Bibek Debroy—constructed a methodology to combine the two rankings and created a comprehensive report card, rating the performance of parliamentarians across all parties. The entire study was anchored by Rahul Kanwal, editor-at-large, TV Today Group. Yet, this is not the most definitive ranking and the following points should be considered:

MURLI MANOHAR JOSHI
Varanasi, UTTAR PRADESH

33	Rs 12 cr 63%

METHODOLOGY

- 1 Common data—performance and perception—was available only for 373 MPs.
- 2 The SNS score on actual performance in the Lok Sabha is based on these parameters—attendance in the House, attendance in standing committees, questions raised and expenditure of MPLADs funds.
- 3 The ADR survey examined development work in the constituencies, indirectly reflecting the MP's performance.
- 4 The ADR perception score was based on these parameters—employment opportunities, drinking water, roads, public transport, electric supply, hospitals/primary health-care centres, schools, law and order/policing, empowerment of women and security for women.
- 5 Equal weightage (33 per cent each) was given to three scores: Perception score, Parliament performance (attendance, questions asked, attendance in standing committees) and expenditure of MPLADs fund.
- 6 ADR results from West Bengal constituencies are not complete, so West Bengal MPs were excluded.
- 7 Union ministers, Lok Sabha speaker, deputy speaker and Leader of Opposition were excluded from the ranking because they are not required to sign the attendance register, hence, their performance data was not available.

WHICH PARTY HAS THE BEST MPs?

Shiv Sena MPs are the most hardworking

Share of Hardworking MPs		Party	
36.4%	4/11*	Shiv Sena

एडीआर-दक्ष सर्वे

इस सर्वे में लोकसभा की 525 सीटों पर ढाई लाख वोटों की राय ली गई है। एडीआर का दावा है कि यह देश का सबसे बड़ा सर्वे है। हर सीट पर 500 लोगों से सवाल पूछे गए। जानिए, जनता कितनी संतुष्ट है अपने सांसदों के प्रदर्शन से-

दिल्ली

इनकी ही सरकार, फिर भी बेकार

दिल्ली का कोई भी सांसद औसत के ऊपर नहीं

मानव संसाधन विकास मंत्री, लोगों को रोजगार ही नहीं दे पाए

पब्लिक ट्रांसपोर्ट पर आगे, कानून व्यवस्था पर पीछे रह गए

हिमाचल

राज्य छोटा, लेकिन सांसदों का काम सबसे अच्छा

प्रत्याशी सबसे जरूरी

गोटर सबसे ज्यादा महाराज प्रजापती को देते हैं

इसके बाद पार्टी को महत्व है

गोटर को राजपूत प्रजापती एड का प्रत्याशी भी महत्वपूर्ण

जाति या धर्म को सबसे कम महत्व देते हैं वोटर

हर मुद्दे पर औसत से अच्छे

कहने को हिमाचल प्रदेश में सिर्फ चार सीटें हैं। राज्य जितना छोटा है, यहां के सांसदों का काम उन्को जनता की नजरों में उतना ही ठीक है। बेहतर अस्पताल, कानून व्यवस्था और रोजगार जैसे मुद्दों पर हमीरपुर के भाजपा सांसद अनुराग त्रिवेदी को उनके वोटर्स ने सबसे ज्यादा नंबर दिए। उन्हें 10 में से 7.66 नंबर मिले। जो औसत नंबर 6 से ज्यादा है। यहां के सभी सांसदों को औसत से ज्यादा नंबर मिले।

भास्कर विशेष

एडीआर-दक्ष सर्वे

इस सर्वे में लोकसभा की 525 सीटों पर ढाई लाख वोटों की राय ली गई है। एडीआर का दावा है कि यह देश का सबसे बड़ा सर्वे है। हर सीट पर 500 लोगों से सवाल पूछे गए। जानिए, राज्यवार जनता कितनी संतुष्ट है सांसदों के प्रदर्शन से-

गुजरात

2 पूर्व मुख्यमंत्रियों के बेटे, 1 सबसे आगे, 1 सबसे पीछे

वोटर्स ने औसत प्रदर्शन यानी 10 में से 6 नंबर हर सांसद को दिए, मग्न में सिर्फ 2 सांसदों को 5 नंबर मिले थे

क्यों वोट देते हैं?

- पार्टी के लिए
- प्रत्याशी के लिए
- जाति और धर्म के लिए
- प्रधानमंत्री प्रत्याशी के लिए
- सिस्टम के लिए

भास्कर विशेष एडीआर-दक्ष सर्वे

लोकसभा की 525 सीटों पर वोटों की राय ली गई है। एडीआर का दावा है कि यह देश का सबसे बड़ा सर्वे है। इसमें ढाई लाख लोगों से सांसदों के कामकाज के बारे में पूछा गया। जाणिए, राज्यवार जनता कितनी संतुष्ट है अपने सांसदों से-

सांसद की रेटिंग का तरीका?

16वीं लोकसभा के लिए होने वाले आम चुनाव से पहले परफॉर्मेंस रिपोर्टिंग फॉर टेम्पोरेटिंग रिजल्ट्स में देश के भास्कर को विशेष रूप से उपलब्ध करवाया। जिसमें 525 सांसदों पर जाकर उनके क्षेत्रों से उनके लिए अपने मुद्दों और जगह के संस्थानों के परफॉर्मेंस पर बात की गई। 13 जनवरी से 14 फरवरी के बीच हुए इस सर्वे में वोटों को आगे सांसदों को परफॉर्मेंस के आधार पर 10 अंकों में से नंबर देने को कहा गया।

सर्वे में वोट द्वाारा दिए गए दस नंबरों को 12 श्रेणियों में बांटा गया था। जिसे आसान करने हुए 'भास्कर' तीन श्रेणियों में उपलब्ध करवा रहा है। ये हैं- खराब, औसत और अच्छा। इसके अलावा वोटों से 30 मुद्दों पर बात की गई। इसमें वोटर्स ने अहमियत के हिसाब से दस नंबरों पर अपना प्राथमिक और शहरी मुद्दों में प्रमुख रूप से ये मुद्दे सामने आए-

ग्रामीण इलाकों के सबसे बड़े मुद्दे -

- सबसे ज्यादा वोट प्राप्त करने वाले हैं- अन्नकर्म देते हैं।
- बुजुर्गों को पर्याप्त धन मिलता है- नहीं।
- लोअर सेकेंडरी स्कूलों में शिक्षकों की कमी है- नहीं।
- जाति वर्ग को छोड़कर सबको वोट देते हैं- नहीं।

मध्यप्रदेश

सांसदों के परफॉर्मेंस का कुल औसत **3.95/10**

कांग्रेस **3.85/10** भाजपा **4.06/10**

मध्यप्रदेश को वर्तमान राजनीतिक रूप से ग्राहक राज्य माना जाता है। इसके बाद भी लोकसभा की 29 सीटों में से निर्दलीय दो ही सीटें पर सांसद परफॉर्मेंस के आधार पर दस में से 5 अंक ले गए हैं। 28 सांसदों का सम्पन्नता औसत से नीचे रहा है। निम्नलिखित रूढ़ि बड़े नगरों से मिली महम्मदी। जहाँतरीदिल सिंधिया, कमलनाथ, सुभाष स्वयंभू, सुमित्रा महाजन, नरेंद्र तोमर का काम लोगों को विकसित संतुष्ट नहीं कर पाया। जबकि कांग्रेस सांसद ज्योतिरादित्य सिंधिया और भाजपा सांसद नरेंद्र सिंह तोमर से उनके वोट सबसे ज्यादा उम्मीद लगाए बैठे थे।

मुद्दों की बात करें तो वोटर्स ने सबसे ज्यादा अहमियत रोजगार के अच्छे अवसरों को दी है। ये इसके बाद अच्छे अस्पताल, पंचायत, बुजुर्ग पेंशन, सड़कें, सड़कों पर अन्न, बेरोजगारी, शहरी विकास, शहरी इलाकों के सबसे बड़े मुद्दे - रोजगार के अवसर, पंचायत, खाद्य पदार्थों की कीमत, अच्छी सड़कें, महिला सुरक्षा, शहरी विकास, बिजली।

राज्य के 29 में से एक भी सांसद का परफॉर्मेंस औसत से ऊपर नहीं

वोटों ने औसत परफॉर्मेंस यानी 10 में से 6 नंबर तक किसी सांसद को नहीं आका

इन मुद्दों पर दिए नंबर

- रोजगार के अवसर
- अच्छे अस्पताल
- पंचायत के लिए
- बुजुर्गों के लिए
- सड़कें
- शहरी विकास
- जल संचयन
- नौकरी के लिए ट्रेनिंग
- पब्लिक ट्रांसपोर्ट
- नौकरी, शिक्षा में आरक्षण
- बेरोजगारी

कांग्रेस

कम ही उम्मीद थी, वैसा ही काम किया

छिन्नका में निर्दलीय सीट पर सांसद रहे हैं। आठ बार सांसद बने हैं। लोगों से इनके उम्मीदें कम ही लगाई थीं। क्योंकि वे छिन्नका में काम करने में आगे बढ़े हैं।

पांच साल के काम के लिए बस **3.59** नंबर ही मिले दस में है।

बड़े चेहरे को हराया, पर वोटर्स को नहीं जीत पाई

मंडलौर से 8 बार सांसद रहे। सभी नगरपालिका वोट की हकमा। बहुत ही टिकट से ही फिर भी छत्र आका से जीते।

कांग्रेस के औसत प्रदर्शन से भी कम **3.44** नंबर ही दिए 10 में से अंकों से इनके परफॉर्मेंस को लेका।

सांसद	रतना	औसत	अच्छा
राजेश नदिनी	3.34		
कातिलाव भूरिया	3.36		
प्रेमचंद गुड्डु	3.42		
नारायण सिंह	4.26		
ज्योतिरादित्य सिंधिया	4.89		
उदय प्रताप	3.43		
अरुण यादव	3.58		
बसोरी सिंह	1.64		
गजेंद्र राजू	4.34		
सज्जनसिंह वर्मा	5.63		

भाजपा

पार्टी का बड़ा चेहरा, लेकिन वोट नाउम्मीद

सुमित्रा महाजन इनके काम से लुभाकर जगह। लेकिन वोटर्स कम से संतुष्ट नहीं। इनकी वक्त औसत तक भी नहीं पहुंच पाया।

उम्मीद थी 2004 में विजिल से जीती थी। लोग के लगे थे उम्मीद थी कि वे अच्छे अवसर मिलेगी में उम्मीद थी।

लैकनि निराशा **3.52**

सुमित्रा महाजन इनके काम से लुभाकर जगह। लेकिन वोटर्स कम से संतुष्ट नहीं। इनकी वक्त औसत तक भी नहीं पहुंच पाया।

नरेंद्र सिंह तोमर इनके काम से लुभाकर जगह। लेकिन वोटर्स कम से संतुष्ट नहीं। इनकी वक्त औसत तक भी नहीं पहुंच पाया।

नंबर ही दिये वोटर्स ने **4.26**

* सांसद जो इस बार चुनाव मैदान में नहीं हैं। इनमें कांग्रेस के 2 और भाजपा के 8 सांसद शामिल हैं।

भास्कर विशेष एडीआर दक्ष सर्व्हे

लोकसभेच्या ५२५ जागांसाठी मतदारांचा कल जाणून घेण्यात आला. एडीआरचा दावा आहे, की हा देशातील पहिला सर्व्हे आहे. प्रत्येक मतदारसंघात ५०० जणांशी चर्चा झाली. जाणून घ्या, निवडून दिलेल्या खासदारांप्रति राजनिहाय जनता किती संतुष्ट आहे...

अध्याह्न अधिक खासदार नापासच

यशवंत सिन्हा, शिव सोरेन, सुबोधकांत सहाय यांच्यासारखे खासदार या राज्यात आहेत. परंतु त्यांच्यातील कोणाचेही काम चांगले नव्हते. मतदारांनी त्यांना सरासरी ४.३० गुण दिले. १४ पैकी फक्त ४ खासदारांचे काम पसंतीस उतरले. ते भाजपचे आहेत. लोहदरगाचे खासदार सुदर्शन भगत यांना सर्वाधिक १० पैकी ७ गुण मिळाले.

पंतप्रधानपदाच्या अमेदवारास महत्त्व

- सर्वोच्च मतदान होतं अमेदवार पाहून
- दुसरी पसंती पंतप्रधानपदाच्या अमेदवारास
- तिसरा पसंतीसम दिला जातो फक्त
- चौथा कल भेटवस्तूच ठरतो
- सर्वात कमी महत्त्व जात आणि धर्माळा

सरासरी, म्हणजे १० पैकी ६ पेक्षा जास्त गुण मिळवणारे फक्त ४

कम खराब, रिंगणाबाहेर

रोजगार, पिण्याचे पाणी, रस्ते, शाळा या सर्वच मुद्द्यांवर उत्तरीपेक्षा कमी गुण. यशवंत सिन्हा या वेळी निवडणूक रिंगणात नाहीत. पण त्यांचे पुत्र अमेदवार आहेत. त्यांच्या कामाचा परिणाम कुलाच्या जय-परजयवर निश्चितच होईल.

यशवंत सिन्हा, हजारीबाग 4.31 गुण. अतः येथून त्यांचे चिंत्नीव रिंगणात

केंद्रीय मंत्री, तरी पिछाडीवर

कॅबिनेटचे डायरेक्टरातील एकमेव खासदार. केंद्रातही मंत्री. तरी उत्तरेच्या मुद्द्यांवर योग्य रीतीने आवाज उठवू शकले नाहीत. एकही मुद्द्यावर त्यांना उत्तरीपेक्षा जास्त गुण मिळाले नाहीत.

सुबोधकांत सहाय, रांची 4.18 गुण. या वेळी पुन्हा लढवता आहेत निवडणूक

अन्य खासदारांची कामगिरी

खासदार	गुण	पक्ष
सुदर्शन भगत	7.15	भाजप
निशिकांत दुबे	6.78	भाजप
कडिया मुंडा	5.91	भाजप
अजय कुमार	4.22	भाजप
पशुपति नाथ सिंह	6.80	भाजप
रवींद्र पांडेय	6.17	भाजप
बाबूलाल मरांडी	5.84	भाजप
शिबू सोरेन	4.04	भाजप

या यादीत अपक्ष खासदार आणि अशा खासदारांची (यशवंत सिन्हा वगळता) नावे नाहीत, जे या वेळी निवडणूक लढवणार नाहीत.

सर्वोत्तम व कमकुवत खासदार भाजपचाच

छत्तीसगडमध्ये लोकसभेच्या ११ पैकी १० जागा भाजप आणि १ काँग्रेसकडे. सर्वात चांगले काम केले ते बस्तरमधील भाजपचे दिनेश कश्यप यांनी. त्यांना १० पैकी ७.५६ गुण मिळाले. सर्वात कमी गुण म्हणजे ५.४८ गुण भाजपचे रमेश बैस यांना मिळाले. चांगले काम करणाऱ्यांच्या यादीत काँग्रेसच्या चरणदास महंत यांना ७.१५ गुण मिळाले.

पक्षापेक्षा अमेदवारास प्राधान्य

- मतदार प्रथम प्राधान्य अमेदवाराच्या देतात
- त्यापलीकडे पक्ष पाहून मतदान होतं.
- तिसरे प्राधान्य जात आणि धर्माळा आहे.
- पंतप्रधानपदाच्या अमेदवाराकही प्राधान्य
- भेटवस्तूमुळे मत बदलत नाहीत मतदार

जे खासदार यावेळी निवडणूक लढवत नाहीत, त्यांची नावे या यादीत समाविष्ट नाहीत.

खासदार	गुण	पक्ष
रमेश बैस	5.48	भाजप
चंद्र साहू	5.99	भाजप
कमला पाटले	6.06	भाजप
विष्णूदेव साय	6.88	भाजप
दिनेश कश्यप	7.56	काँग्रेस

काही चांगले, काही ठीक

काँग्रेसचे एकमेव खासदार. पिण्याचे पाणी आणि रस्त्यांचा सुधारक कामदारांनी त्यांना ७ गुण दिले. परंतु काश्मिरा सुयकराबद्दल मात्र त्यांना ६ गुणच मिळू शकले.

डॉ. चरणदास महंत
कोरबा, कॅबिनेट 7.15

सरासरीपेक्षा जास्त नाही कार्य

सरोज यांची काँग्रेसी उत्तरीपेक्षा कमी रीतीने पिण्याच्या पण्यसाठी त्यांची केलेल्या कार्यासाठी त्यांना ७.०३ गुण मिळाले. सार्या, रस्ते वगळता मात्र त्यांना ६ गुणच मिळवित आले.

सरोज पांडेय
दुर्ग, भाजप 6.62

"No office in the land is more important
than that of being a citizen"
