16th Lok Sabha

“Vote Share” and “Representativeness” of newly elected MPs - 2014

Association for Democratic Reforms and National Election Watch have analysed the percentage of votes won by the newly elected MPs of Lok Sabha elections, 2014 and their representativeness among the total number of registered voters. The data disclosed by the Election Commission of India on their website (http://eci.nic.in/eci_main1/index.aspx) has been used for this report.

The percentage of representativeness was calculated by dividing the votes polled for the winner by the electorate i.e. the total number of registered voters. This value represents the percentage of votes won by the winning candidate among the total number of registered voters in the constituency.

$$\textbf{Representativeness} = \frac{\textit{Total Votes Polled for Winner}}{\textit{Total No. of Registered Voters}}$$

The percentage of vote share was calculated by dividing the votes polled for the winner by the total number of valid votes. This value represents the percentage of votes won by the winning candidate among the total number of valid votes polled.

$$\textbf{Vote Share} = \frac{\textit{Total Votes Polled for Winner}}{\textit{Total No. of Valid Votes Polled}}$$
